Chapter 1. Understanding Mixed Methods Research	1
Purpose and Organization	2
Clarifying Terms	4
What Is Mixed Methods Research?	5
The Name	5
Quantitative and Qualitative Data	6
Mixing the Data	7
Single or Multiple Studies	8
The Central Premise of the Definition	8
Studies That Fit Our Definition	10
Studies in the Gray Areas	11
The Importance of Mixed Methods Research	13
A Brief History	13
<i>Formative Period</i>	13
<i>Paradigm Debate Period</i>	15
<i>Procedural Developments</i>	15
<i>Recent Indicators of Interest</i>	16
SUMMARY	18
ACTIVITIES	19
ADDITIONAL RESOURCES TO EXAMINE	19
Chapter 2. Examining Preliminary Considerations	20
Consider Worldview Stances	21
Different Worldviews or Paradigms	21

Worldviews and Mixed Methods Research	26
<i>Stance 1: There is one “best” paradigm or worldview that fits mixed methods research</i>	26
<i>Stance 2: Researchers can use multiple paradigms or worldviews in their mixed methods study</i>	27
<i>Stance 3: Worldviews relate to the type of mixed methods design and may vary depending on the type of design</i>	27
The Basics of Quantitative and Qualitative Research	28
Research Problems Addressed by Mixed Methods	31
A Need Exists for Both Quantitative and Qualitative Approaches	32
A Need Exists to Enhance the Study With a Second Source of Data	33
A Need Exists to Explain the Quantitative Results	34
A Need Exists to First Explore Qualitatively	34
SUMMARY	35
ACTIVITIES	35
ADDITIONAL RESOURCES TO EXAMINE	36
Chapter 3. Locating and Reviewing Mixed Methods Studies	38
Searching for and Reviewing Mixed Methods Studies	39
Use Search Terms	39
Are the Studies Mixed Methods Research?	39
A Mixed Methods Notation System and Visual Diagrams	40
Four Examples of Mixed Methods Studies	41
Study A: Collecting Both Quantitative and Qualitative Data at the Same Time to Understand a Problem (Jenkins, 2001)	44
Study B: Using Qualitative Data in an Experiment (Rogers, Day, Randall, & Bentall, 2003)	45
Study C: Explaining Quantitative Results With Qualitative Data (Aldridge, Fraser, & Huang, 1999)	48
Study D: Exploring Qualitatively to Develop a Quantitative Instrument (Myers & Oetzel, 2003)	50
Similarities and Differences Among the Sample Studies	54
SUMMARY	56
ACTIVITIES	57
ADDITIONAL RESOURCES TO EXAMINE	57
Chapter 4. Choosing a Mixed Methods Design	58
Classifications of Mixed Methods Designs	59
The Four Major Types of Mixed Methods Designs	59
The Triangulation Design	62
<i>Triangulation Design Procedures</i>	62
<i>Variants of the Triangulation Design</i>	64
<i>Strengths of the Triangulation Design</i>	66
<i>Challenges in Using the Triangulation Design</i>	66

The Embedded Design	67
<i>Embedded Design Procedures</i>	67
<i>Variants of the Embedded Design</i>	69
<i>Strengths of the Embedded Design</i>	70
<i>Challenges in Using the Embedded Design</i>	70
The Explanatory Design	71
<i>Explanatory Design Procedures</i>	72
<i>Variants of the Explanatory Design</i>	72
<i>Strengths of the Explanatory Design</i>	74
<i>Challenges in Using the Explanatory Design</i>	74
The Exploratory Design	75
<i>Exploratory Design Procedures</i>	77
<i>Variants of the Exploratory Design</i>	77
<i>Strengths of the Exploratory Design</i>	78
<i>Challenges in Using the Exploratory Design</i>	78
Selecting a Type of Mixed Methods Design	79
The Timing Decision	81
The Weighting Decision	81
The Mixing Decision	83
<i>Merging Data Sets</i>	83
<i>Embedding Data at the Design Level</i>	83
<i>Connecting From Data Analysis to Data Collection</i>	83
Implementing the Design Decisions	84
Writing a Paragraph to Identify a Study's Design	86
SUMMARY	86
ACTIVITIES	87
ADDITIONAL RESOURCES TO EXAMINE	88
Chapter 5. Introducing a Mixed Methods Study	89
Writing a Mixed Methods Title	90
Qualitative and Quantitative Titles	90
Mixed Methods Titles	91
Stating the Problem in the Introduction	94
Structure of a "Statement of the Problem" Section	94
Integrate Mixed Methods Into the Statement of the Problem	95
The Purpose Statement	97
Qualitative and Quantitative Purpose Statements	97
Mixed Methods Purpose Statements	98
Research Questions and Hypotheses	103
Qualitative Questions and Quantitative Questions and Hypotheses	103
Mixed Methods Research Questions	105
SUMMARY	107
ACTIVITIES	108
ADDITIONAL RESOURCES TO EXAMINE	109

Chapter 6. Collecting Data in Mixed Methods Research	110
Procedures in Qualitative and Quantitative Data Collection	111
Sampling Procedures	112
Permissions Needed	113
Information to Be Collected	114
Recording the Data	115
Administering the Data Collection	116
Data Collection in Mixed Methods Designs	116
Concurrent Data Collection Issues	117
<i>Participant Selection</i>	119
<i>The Sample Size Question</i>	119
<i>When Contradictory Results Occur</i>	120
<i>Introducing Potential Bias Through Data Collection</i>	120
Sequential Data Collection Issues	121
<i>Sampling the Same or Different Individuals</i>	122
<i>Using the Same or Different Sample Sizes</i>	123
<i>Selecting Results for the Follow-Up</i>	123
<i>Designing an Instrument</i>	123
SUMMARY	125
ACTIVITIES	127
ADDITIONAL RESOURCES TO EXAMINE	127
Chapter 7. Analyzing Data in Mixed Methods Research	128
Procedures in Quantitative and Qualitative Data Analysis	128
Preparing the Data for Analysis	130
Exploring the Data	130
Analyzing the Data	131
Representing the Data Analysis	132
Validating the Data	133
Data Analysis Within Mixed Methods Designs	135
Concurrent Data Analysis	136
<i>Data Transformation</i>	137
<i>Comparisons Through a Matrix or Discussion</i>	140
Sequential Data Analysis	142
<i>When Quantitative Data Are Collected First</i>	144
<i>When Qualitative Data Are Collected First</i>	145
Validate the Data Within a Mixed Methods Design	145
SUMMARY	148
ACTIVITIES	149
ADDITIONAL RESOURCES TO EXAMINE	149

Chapter 8. Writing and Evaluating Mixed Methods Research	151
General Guidelines for Writing	152
Organize the Structure of the Writing So That It Relates to the Designs	153
Structure of a Proposal for a Dissertation or Thesis	154
Structure of the Project Narrative for a National Institutes of Health Proposal	157
Structure of a Mixed Methods Journal Article	159
Evaluating a Mixed Methods Study Within Designs	162
Quantitative and Qualitative Standards	163
Mixed Methods Standards	163
SUMMARY	165
ACTIVITIES	165
ADDITIONAL RESOURCES TO EXAMINE	166
Chapter 9. Questions Often Raised About Mixed Methods Research	167
Anticipate Mixed Methods Questions	168
What Is Mixed Methods Research?	168
It Is Not Just Qualitative Research	168
It Is Not Mixed Model Research	169
It Is Not a Method That Researchers Have Always Used	169
It Is an Approach That Can Be Learned	170
<i>Published Journal Articles</i>	170
<i>Methodological Literature</i>	170
<i>Syntheses of Mixed Methods Studies</i>	172
It Has a Philosophical or Worldview Foundation	173
Is Mixed Methods Research Accepted?	174
Several Factors Have Sparked Interest	175
If It Is Rigorous, Graduate Faculty Will Support It	175
Funding Agencies Support Mixed Methods Research	176
Journals Will Publish It	177
Acceptance Is Extending to Different Disciplines and Across Cultures	178
Is Mixed Methods Research Realistic?	180
Researchers Need Specific Skills	180
It Requires Time and Resources	181
SUMMARY	182
ACTIVITIES	183
ADDITIONAL RESOURCES TO EXAMINE	183
Chapter 10. Future Directions for Mixed Methods Research	184
Needed Developments in Mixed Methods Research	185
Mixed Methods Designs and Associated Procedural Issues	185

Mixed Methods Designs and Different Worldviews	189
Applications of Mixed Methods Research	190
Implications and the Value of Using Mixed Methods	191
SUMMARY	192
ACTIVITIES	193
ADDITIONAL RESOURCES TO EXAMINE	193
Appendix A. A Triangulation Design	194
Appendix B. An Embedded Design	204
Appendix C. An Explanatory Design	216
Appendix D. An Exploratory Design	239
