

Contents

1 X-Ray Fluorescence Spectrometry in Twenty-First Century Archaeology	1
M. Steven Shackley	
2 An Introduction to X-Ray Fluorescence (XRF) Analysis in Archaeology	7
M. Steven Shackley	
3 Factors Affecting the Energy-Dispersive X-Ray Fluorescence (EDXRF) Analysis of Archaeological Obsidian	45
M. Kathleen Davis, Thomas L. Jackson, M. Steven Shackley, Timothy Teague, and Joachim H. Hampel	
4 Non-destructive EDXRF Analyses of Archaeological Basalts	65
Steven P. Lundblad, Peter R. Mills, Arian Drake-Raue, and Scott Kekuewa Kikilo	
5 Non-destructive Applications of Wavelength XRF in Obsidian Studies	81
Annamaria De Francesco, M. Bocci, and G.M. Crisci	
6 Portable XRF of Archaeological Artifacts: Current Research, Potentials and Limitations	109
Ioannis Liritzis and Nikolaos Zacharias	
7 Elemental Analysis of Fine-Grained Basalt Sources from the Samoan Island of Tutuila: Applications of Energy Dispersive X-Ray Fluorescence (EDXRF) and Instrumental Neutron Activation Analysis (INAA) Toward an Intra-Island Provenance Study	143
Phillip R. Johnson	

8 Comparison and Contrast Between XRF and NAA: Used for Characterization Of Obsidian Sources in Central Mexico 161
 Michael D. Glascock

9 Is There a Future for XRF in Twenty-First Century Archaeology?..... 193
 Rosemary A. Joyce
