

Content

- 150 - 162
Effects of Tandem Side-by-side GTAW Welds on Centerline Solidification Cracking of AA2024
Abdulaziz Albannai, Abdulkareem Aloraier, Ayman Alaskari, Meshal Alawadhi, Suraj Joshi
- 163 - 182
Path and Trajectory Planning for an Automated Carrier Vehicle Equipped with Two Conveyor Belts used in Manufacturing Supply
Ákos Cservenák
- 183 - 191
Evaluation of Structural and Mechanical Properties of the Nitrided Layer on Steel for Weapons
David Dobrocký, Zdeněk Joska, Jiří Procházka, Emil Svoboda, Petr Dostál
- 192 - 198
Weight Reduction in an AA2017 Aluminum Alloy Part through the Gas Forming Process of a Blank with a Variable Thickness
Gillo Giuliano, Wilma Polini
- 199 - 205
Influence of the Shape of the Filling on the Mechanical Properties of Samples Made by 3D Printing
Zdeněk Joska, Lukáš Andrés, Tomáš Dražan, Karel Maňas, Zdeněk Pokorný, Josef Sedlák
- 206 - 212
Increasing the Structural Strength of Corrosion-resistant Steel for Elastic Components of Diaphragm Compressor
Jan Krmela, Tetiana Hovorun, Kristina Berladir, Artem Artyukhov
- 213 - 221
Force and Temperature Conditions of Face Milling with Varying Chip Quotient as a Function of Angle of Rotation
János Kundrák, Zoltán Pálmai, Bernhard Karpuschewski, Csaba Felbő, Tamás Makkai, Dmytro Borysenko
- 222 - 229
Lightweight Design and Optimization Effect Evaluation of Hydro Generator Set
Yongyi Liao, Baiyu Liao
- 230 - 239
Experimental Characterization of Microcomposite Magnetorheological Elastomer
Salah Rouabah, Salah Aguib, Mohamed Hadji, Lallia Kobzili
- 240 - 245
Resistance of Tool Steel Processed by Unconventional Forming Technology against Abrasive Wear
Kateřina Rubešová, Michal Pekovič, Hana Jirková, David Hradil
- 246 - 253
Influence of Basic Environment of Geopolymer Composites on Degradation Rates of E and AR Type Glass Fibers
Martina Ryvolová, Lucie Svobodová, Totka Bakalova, Lukáš Voleský
- 254 - 259
Characteristic Curve of the Relation of Cutting Conditions and the Results of Metal Machining
Karol Vasilko, Zuzana Murčinková
- 260 - 268
Influence of Rubber Composition on Mechanical Properties
Martin Vašina, Marek Pöschl, Petr Zádrapa
- 269 - 277
Application of Edge Detection Technique for Surface Roughness Estimation of Ti-6Al-4V Turned Surfaces
Vishwanatha J. S., Srinivasa Pai P.
- 278 - 286
Analysis of the Thermal Stability of PTFE Nanoparticles Enriched Coating on Material Made from Al-Si Alloy
Igor Zúravský, Jaroslava Svobodova, Irena Lysonkova, Michal Lattner, Josef Ponikelský
