|---|-----|
| Foreword (1) <i>Peter D. Wagner</i> | v |
| Foreword (2) <i>Roy J. Shephard</i> | vii |
| Preface <i>Philippe Connes, Olivier Hue and Stéphane Perrey</i> | ix |
| Acknowledgements | xi |
| Section 1. Muscle Function and Bioenergetics | |
| Muscle Contraction and Supplying ATP to Muscle Cells <i>Masataka Kawai and Robin Candau</i> | 3 |
| Hormonal and Cellular Control of Bioenergetics <i>Leonidas G. Karagounis and John A. Hawley</i> | 26 |
| Skeletal Muscle Fatigue <i>Michael I. Lindinger</i> | 37 |
| A Non Invasive Investigation of Training-Induced Metabolic Changes <i>Gwenael Layec, Patrick J. Cozzone and David Bendahan</i> | 51 |
| Section 2. Respiratory Function and Activity | |
| Lungs (Anatomy) and Mechanics of Ventilation <i>André Denjean</i> | 69 |
| Control of Breathing: Regulation of Exercise Hypernea <i>Grégory Blain</i> | 78 |
| Pulmonary Diffusion, Ventilation-Perfusion Ratio and Arterial Oxygen Homeostasis <i>Connie C.W. Hsia</i> | 95 |
| Section 3. Cardiac Function and Activity | |
| Heart Anatomy, Mechanisms of Contraction, and Cardiac Function During Exercise <i>Kibar Yared and Aaron L. Baggish</i> | 119 |
| Electrocardiogram <i>François Carre</i> | 134 |
| Cardiac Performance and Hemodynamics <i>Julien Boissiere and Stéphane Nottin</i> | 147 |

| | |
|--|-----|
| Heart Rate Variability | 162 |
| <i>Martin Garet, Vincent Pichot, Frédéric Roche and Jean-Claude Barthelemy</i> | |

Section 4. Blood Flow Dynamics, Blood Circulation and Vascular Function

| | |
|--|-----|
| Characteristics of Blood Vessels | 183 |
| <i>Eszter Pais, Herbert J. Meiselman and Tamas Alexy</i> | |
| Control of Skeletal Muscle Microcirculation in Exercise | 192 |
| <i>Michael E. Tschakovsky and Kyra E. Pyke</i> | |
| Blood Rheology and Exercise | 213 |
| <i>Philippe Connes, Jean-Frédéric Brun and Oguz K. Baskurt</i> | |
| Endothelial Function and Physical Activity | 230 |
| <i>Oguz K. Baskurt and Herbert J. Meiselman</i> | |
| Exercise, Oxidative Stress, and Inflammation | 245 |
| <i>Ioannis G. Fatouros and Dimitrios Kouretas</i> | |
| Blood Hemostasis in Exercise and Training | 259 |
| <i>Mahmoud S. El-Sayed and Nagia Ali</i> | |

Section 5. Aerobic Fitness: Indices, Limiting Factors and Effect of Training

| | |
|--|-----|
| Time Course of Oxygen Uptake at Exercise | 285 |
| <i>Stéphane Perrey</i> | |
| Ventilatory Thresholds, Lactic Thresholds and Maximal Lactate Steady State Concept | 299 |
| <i>Ralph Beneke</i> | |
| Oxygen Uptake Efficiency Slope | 316 |
| <i>Aurélien Pichon and Sophie Antoine-Jonville</i> | |
| Energetic Cost of Exercise | 327 |
| <i>Carl Foster, Alejandro Lucia, Jos J. DeKoning, Glenn Wright, John P. Porcari, Rebecca A. Battista, Jack T. Daniels, Dan Chelstrom, Brooke Ferguson, Courtney Hayes and Kristen Schaller</i> | |
| Substrate Oxidation | 340 |
| <i>John A. Hawley</i> | |

Section 6. Anaerobic Fitness: Indices, Limiting Factors and Effects of Training

| | |
|---|-----|
| Anaerobic Power and Capacity | 351 |
| <i>Karim Chamari, Anis Chaouachi and Sebastien Racinais</i> | |
| Accumulated Oxygen Deficit Issues | 367 |
| <i>Jon Ingulf Medbø</i> | |
| Repeated Sprint Ability | 385 |
| <i>David Bishop and Olivier Girard</i> | |

Section 7. Environmental Physiology

- Exercise in Hot and Cold Environments 403
Juha Oksa, Sebastien Racinais and Olivier Hue
- Altitude, Hypoxia and Exercise 422
Jean-Paul Richalet
- Apnea Diving 431
Darija Bakovic, Ivan Palada and Zeljko Dujic

Section 8. Exercise Sudden-Death in Apparently Healthy Subjects

- Sudden Cardiac Death Related to Physical Exercise 447
François Carre
- A Contemporary Understanding of the Exercise-Related Heat Illnesses 456
Timothy D. Noakes
- Exercise Associated Hyponatremia 468
Timothy D. Noakes
- The Case of Sickle Cell Trait Carriers 478
*Philippe Connes, Harvey Reid, Cyril Martin, Olivier Hue,
 Marie-Dominique Hardy-Dessources and
 Michael F. Bergeron*

Section 9. Diseases: Exercise Testing and Training Prescription

- Exercise Therapy for Obesity and Type 2 Diabetes 491
Stephan F.E. Praet and Luc J.C. Van Loon
- Coronary Artery Disease 521
Vincent Gremeaux, Yves Laurent and Jean-Marie Casillas
- Cardiopulmonary Exercise Testing in Patients with Heart Failure 539
Sophie Antoine-Jonville and Mark J. Dayer
- Hypertension and Exercise 556
Vincent Gremeaux, Jean-Luc Philip, Yves Laurent and Jean-Marie Casillas
- Role of Regular Exercise in the Management of Asthma 573
Felix S.F. Ram
- New Insights on Chronic Obstructive Pulmonary Disease Exercise
 Physiopathology 588
Christelle Ramonatxo, Didier Saey and François Maltais
- Sickle Cell Anemia 607
Philippe Connes, Roberto Machado, Olivier Hue and Harvey Reid
- Human Immunodeficiency Virus 623
W. Todd Cade

| | |
