

Table of Contents

1. Basic Principles of Organic Farming	5
1.1. Principle of Health	5
1.2. Principle of Ecology	6
1.3. Principle of Fairness	7
1.4. Principle of Care	7
2. Organic Farming, Ecology and Sustainable Agriculture	9
2.1. Organic Farming	9
2.2. Ecology	13
2.3. Sustainable Agriculture	16
3. The Principal Aims of Organic Production and Processing	18
4. Biological and Cultural Diversity – Treasures at Stake	21
4.1. The Convention on Biodiversity	21
4.2. „Species“, „Breeds“ and Other Definitions	22
4.3. Factors Shaping Diversity	22
4.4. Importance of Local Breeds	23
4.5. Why Are Breeds Disappearing at Such Rate?	24
4.6. The Conservation of Local Breeds	26
4.7. Intellectual Property Rights Regime Necessary for Traditional Livestock Raisers	28
4.8. Disease Resistance of Indigenous Breeds	28
4.9. Role of Indigenous Knowledge	29
4.10. Intellectual Property Protection and the Danger of Biopiracy	30
5. Genetic Engineering	31
6. History of Organic Farming	37
6.1. Pre-World War II	37
6.2. Post-World War II	39
6.3. 21 st Century	40
7. History of IFOAM and IFOAM Basic Standards	42
8. General Requirements for Crop Production	47
8.1. Diversity in Crop Production	51
8.2. Soil Fertility and Fertilization	52
8.3. Pest, Disease, Weed and Growth Management	53
8.4. Avoiding Contamination	54
9. General Requirements in Animal Husbandry	56
9.1. Length of Conversion Period	57
9.2. Breeds and Breeding	58
9.3. Feeding	59
9.4. Veterinary Medicine	61

10. Organic Food	64
10.1. Types of Organic Food.....	64
10.2. Identifying Organic Food.....	65
10.3. Legal Definition	66
10.4. Evidence of the Benefits of Organic Food.....	66
10.5. Criticism.....	68
10.6. History of Certification	69
10.7. Related Movements.....	71
10.8. Facts and Statistics	72
10.9. Production of Organic Foodstuffs	74
11. Processing and Handling of Organic Commodities	75
11.1. Chemical Residues in Meat.....	76
11.2. Pest and Disease Control.....	78
11.3. Packaging	79
11.4. Labelling.....	79
12. Inspection System	82
12.1. Calves	87
12.2. Beef Cattle.....	88
12.3. Ovine	88
12.4. Caprine	88
12.5. Porcine.....	89
12.6. Poultry.....	89
12.7. Rabbits.....	91
12.8. Bees	91
12.9. Aquaculture Production.....	95
12.10. Maintaining Records on Production of Organic Foodstuffs	97
12.11. Record Keeping.....	98
12.12. Social Justice	98
13. Organic Farming in the Czech Republic.....	100
13.1. Introduction	100
13.2. Background	101
13.3. Current Stage of Development of Organic Farming in the Czech Republic.....	102
13.4. Legislation, Control and Certification.....	103
13.5. State Support of Organic Farming Provided since 1990.....	104
13.6. Basic Statistics.....	104
13.7. Main Goals of the Action Plan of the Czech Republic	105
13.8. Priorities of the Action Plan of the Czech Republic	105
13.9. SWOT Analysis of Organic Farming in the Czech Republic	106
14. Animal Welfare	110
14.1. Breed	114
14.2. Early Ontogeny	115
14.3. The Physical and Social Environment	116
14.4. Ultimate Functions and Proximate Mechanisms of Behaviour.....	117
14.5. Human-Animal Relationship – the Central Factor.....	122
14.5.1. Influences on Cows' Behaviour and Welfare	122
14.5.2. Human-Animal Relationship and Risk of Accidents.....	123

14.5.3. Attitude, Personality and the Human-Animal Relationship.....	124
15. General Principles of Farm Animals Rearing.....	126
15.1. General Principles of Cattle Rearing.....	126
15.1.1. Biological Characteristics of Cattle.....	126
15.1.2. Enclosures, Housing and Equipment	128
15.1.3. Management.....	130
15.1.4. Additional Provisions for the Various Categories of Cattle.....	131
15.2. General Principles of Sheep Rearing	134
15.2.1. Biological Characteristics of Sheep	134
15.2.2. Stockmanship and Inspection of Sheep.....	135
15.2.3. Enclosures, Housing and Equipment	136
15.2.4. Management	136
15.3. General Principles of Goats Rearing.....	138
15.3.1. Biological Characteristics of Goats.....	138
15.3.2. Stockmanship and Inspection of Goats	139
15.3.3. Enclosures, Housing and Equipment	140
15.3.4. Management.....	140
15.4. General Principles of Pigs Rearing	141
15.4.1. Biological Characteristics of Pigs	141
15.4.2. Stockmanship and Inspection of Pigs.....	144
15.4.3. Enclosures, Housing and Equipment	144
15.4.4. Management	145
15.4.5. Additional Provisions for the Various Categories of Pigs	147
15.5. General Principles of Domestic Fowl Rearing.....	150
15.5.1. Biological Characteristics of the Domestic Fowl.....	150
15.5.2. Stockmanship and Inspection.....	152
15.5.3. Enclosures, Housing and Equipment	152
15.5.4. Management.....	153
15.5.5. Additional Provisions for the Various Categories of Domestic Fowls	154
15.5.6. Killing of Unwanted Chicks and Embryos in Hatcheries	158
15.6. General Principles of Domestic Geese Rearing	158
15.6.1. Biological Characteristics of the Domestic Goose.....	158
15.6.2. Stockmanship and Inspection.....	160
15.6.3. Enclosures, Housing and Equipment	160
15.6.4. Management	161
15.7. General Principles of Muscovy Ducks Rearing	162
15.7.1. Biological Characteristics of Muscovy Ducks.....	162
15.7.2. Stockmanship and Inspection.....	164
15.7.3. Enclosures, Housing and Equipment	164
15.7.4. Management	165
15.8. General Principles of Rabbits Rearing.....	166
15.8.1. Biological Characteristics of Rabbits.....	166
15.8.2. Stockmanship and Inspection.....	167
15.8.3. Enclosures, Housing and Equipment	168
15.8.4. Management	170
15.8.5. Additional Provisions for the Various Categories of Rabbits.....	171
15.9. General Principles of Selected Fish Farming.....	172
15.9.1. Rainbow Trout.....	172
15.9.2. European Eel	173

15.9.3. Carp.....	175
15.10. Conclusion.....	176
176. Literature Used in Textbook.....	178
15.1.1. Biological Characteristics of Various Categories of Cattle.....	66
15.1.2. Enclosures, Housing and Equipment.....	68
15.1.3. Management.....	69
15.1.4. Additional Provisions for the Various Categories of Cattle.....	71
15.2.1. Biological Characteristics of Sheep.....	72
15.2.2. Stockmanship and Inspection of Sheep.....	74
15.2.3. Enclosures, Housing and Equipment.....	75
15.2.4. Management.....	76
15.3.1. Biological Characteristics of Goats.....	77
15.3.2. Stockmanship and Inspection of Goats.....	79
15.3.3. Enclosures, Housing and Equipment.....	80
15.3.4. Management.....	81
15.4.1. Biological Characteristics of Pigs.....	82
15.4.2. Stockmanship and Inspection of Pigs.....	83
15.4.3. Enclosures, Housing and Equipment.....	84
15.4.4. Management.....	85
15.4.5. Additional Provisions for the Various Categories of Pigs.....	86
15.5.1. Biological Characteristics of the Domestic Fowl.....	87
15.5.2. Stockmanship and Inspection.....	89
15.5.3. Enclosures, Housing and Equipment.....	90
15.5.4. Management.....	91
15.5.5. Additional Provisions for the Various Categories of Domestic Poultry.....	92
15.6.1. Biological Characteristics of the Domestic Goose.....	93
15.6.2. Stockmanship and Inspection.....	94
15.6.3. Enclosures, Housing and Equipment.....	95
15.6.4. Management.....	96
15.7.1. Biological Characteristics of Muscovy Ducks.....	97
15.7.2. Stockmanship and Inspection.....	98
15.7.3. Enclosures, Housing and Equipment.....	99
15.7.4. Management.....	100
15.8. General Principles of Rabbit Rearing.....	101
15.8.1. Biological Characteristics of Rabbits.....	102
15.8.2. Stockmanship and Inspection.....	103
15.8.3. Enclosures, Housing and Equipment.....	104
15.8.4. Management.....	105
15.8.5. Additional Provisions for the Various Categories of Rabbits.....	106
15.9. General Principles of Selective Fish Farming.....	107
15.9.1. Rainbow Trout.....	108
15.9.2. European Perch.....	109
