Preface xv

PART 1

Information Systems in Perspective 1

1 An Introduction to Information Systems in Organizations 2

Willson, Canada 3

Information Concepts 5

Data, Information, and Knowledge 5

Characteristics of Valuable Information 7

What Is an Information System? 8

Input 9

Processing 9

Output 9

Feedback 9

Computer-Based Information Systems 10

Hardware 11

Software 12

Databases 13

Telecommunications, Networks, and the Internet 14

People 16

Procedures 17

Business Information Systems 17

Electronic and Mobile Commerce 18

Enterprise Systems 20

Information and Decision Support Systems 21

Information Systems @ Work: With ERP Access, Small Companies Are Reaching for the Skies 22

Specialized Business Information Systems 24

Systems Development 27

Investigation, Analysis, and Design 28

Construction, Integration and Testing, Implementation, Operation and Maintenance, and Disposition	28
Organizations and Information Systems	29
Innovation	30
Organizational Change	32
Competitive Advantage	32
Factors that Lead Firms to Seek Competitive Advantage	32
Strategic Planning for Competitive Advantage	34
Financial Evaluation of Information System Projects	36
Payback Period	37
Internal Rate of Return	37
Global Challenges in Information Systems	39
Information Systems in Business and Society	39
Ethical & Societal Issues: Facebook Has User Privacy Problems	40
Careers in Information Systems	41
Roles, Functions, and Careers in IS	43
Typical IS Titles and Functions	43
IS Careers in Technology Organizations	46
Working in Teams	46
Finding a Job in IS	46
CASE ONE: Campbell Uses Technology to Reach Out to the Younger Generation	54
CASE TWO: TUI Deutschland Uses Information Systems to Gain a Competitive Advantage	55

PART 2**Technology 59****2 Hardware and Software 60**

Fujitsu, Japan	61
Computer Systems: Integrating the Power of Technology	62
Hardware Components	63
Processing and Memory Devices: Power, Speed, and Capacity	64
Processing Characteristics and Functions	64
Memory Characteristics and Functions	64
Multiprocessing	65
Secondary Storage and Input and Output Devices	66
Access Methods	67
Secondary Storage Devices	67
Input Devices	72
Output Devices	77
Information Systems @ Work: Printing Livers at Organovo	80
Computer System Types	81
Portable Computers	82
Nonportable Single-User Computers	83
Multiple-User Computer Systems	85
Data Centers	87
Green Computing	88
Overview of Software	89
Supporting Individual, Group, and Organizational Goals	90
Installing and Removing Software	91
Systems Software	91
Operating Systems	91
Current Operating Systems	95

Workgroup Operating Systems	98
Enterprise Operating Systems	100
Mobile Operating Systems	100
Embedded Operating Systems	101
Utility Programs	102
Middleware	103
Application Software	104
Types and Functions of Application Software	104
Personal Application Software	106
Workgroup Application Software	110
Enterprise Application Software	110
Ethical & Societal Issues: Digital Software Systems May Improve Nuclear Power Plant Safety	112
Application Software for Information, Decision Support, and Specialized Purposes	113
Programming Languages	114
Software Issues and Trends	114
Software Bugs	114
Copyrights and Licenses	115
Software Upgrades	115
Global Software Support	115
CASE ONE: Kaiser Permanente Implements Electronic Health Record (EHR) System	123
CASE TWO: Sending Computers into the Cloud	124

3 Database Systems and Applications 128

VELUX, Denmark	129
Data Management	130
Hierarchy of Data	130
Data Entities, Attributes, and Keys	131
The Database Approach	133
Data Modeling and Database Characteristics	133
Data Modeling	134
Relational Database Model	135
Data Cleansing	138
Database Management Systems	139
Overview of Database Types	139
SQL Databases	140
NoSQL Databases	141
Visual, Audio, and Other Database Systems	142
Database Activities	143
Database Administration	147
Popular Database Management Systems	148
Using Databases with Other Software	149
Database Applications	150
Big Data	150
Ethical & Societal Issues: The NSA Tackles Big Data	153
Data Warehouses and Data Marts	154
Business Intelligence	156
Information Systems @ Work: Brandwatch: Applying Business Intelligence to Social Media Data to Make Advertising Decisions	160
CASE ONE: Medihelp: Transforming Traditional Databases into Business Intelligence	167
CASE TWO: HanaTour: Gaining Customer Trust Through Increased Security	167

4	Telecommunications and Networks	170
	Westermo, Sweden	171
	An Overview of Telecommunications	173
	Channel Bandwidth	174
	Communications Media	174
	Growth in Wireless Data Traffic	180
	Networks and Distributed Processing	180
	Network Topology	181
	Network Types	182
	Basic Processing Alternatives	184
	Client/Server Systems	184
	Ethical & Societal Issues: Safaricom's Moves against Hate Speech	185
	Telecommunications Hardware	186
	Telecommunications Software	187
	Use and Functioning of the Internet	188
	How the Internet Works	189
	Cloud Computing	193
	The World Wide Web	194
	How the Web Works	194
	Web Programming Languages	197
	Web Services	198
	Developing Web Content and Applications	199
	Internet and Web Applications	200
	Web 2.0 and the Social Web	200
	Online Information Sources	202
	Search Engines and Web Research	204
	Information Systems @ Work: Improved Insight via Clickstream	
	Analysis	206
	Web Portals	208
	Blogging and Podcasting	212
	Online Media and Entertainment	213
	Shopping Online	217
	Travel, Geolocation, and Navigation	218
	Internet Utilities	220
	Intranets and Extranets	221
	CASE ONE: Rural Africa Reaches to the Sky for Internet Access	229
	CASE TWO: War Games: Now More Real Than Ever	230

PART 3**Business Information Systems 235**

5	Electronic and Mobile Commerce and Enterprise Systems	236
	Bharti Airtel, India	237
	An Introduction to Electronic Commerce	238
	Business-to-Business E-Commerce	238
	Business-to-Consumer E-Commerce	238
	Consumer-to-Consumer E-Commerce	240
	E-Government	241
	Mobile Commerce	242
	Mobile Commerce in Perspective	242
	Electronic and Mobile Commerce Applications	242

Retail and Wholesale	242
Manufacturing	243
Marketing	244
Advertising	245
Bartering	245
Investment and Finance	247
Banking	248
E-Boutiques	249
Advantages of Electronic and Mobile Commerce	249
E-Commerce and M-Commerce Technology Infrastructure	250
Hardware	251
Web Server Software	251
E-Commerce Software	251
Mobile Commerce Hardware and Software	251
Electronic Payment Systems	252
An Overview of Transaction Processing Systems	255
Traditional Transaction Processing Methods and Objectives	256
Transaction Processing Systems for Entrepreneurs and Small and Medium-Sized Enterprises	259
Transaction Processing Activities	260
Data Collection	260
Data Editing	261
Data Correction	262
Data Processing	262
Data Storage	262
Document Production	262
Enterprise Resource Planning	262
An Overview of Enterprise Resource Planning	263
Advantages of ERP	263
Leading ERP Systems	265
Supply Chain Management (SCM)	266
Information Systems @ Work: Using ERP Systems to Accommodate Rapid Growth in the Meat Industry	267
Customer Relationship Management	268
Product Lifecycle Management (PLM)	270
Ethical & Societal Issues: Online Fundraising Supports Research into Rare Genetic Disorder	271
Overcoming Challenges in Implementing Enterprise Systems	274
Hosted Software Model for Enterprise Software	275
CASE ONE: From Stand-Alone to Integrated Applications	283
CASE TWO: Kramp Group, A Million Spare Parts—and Counting	283
6 Information and Decision Support Systems	288
Uttarakhand Power Corporation Ltd., India	289
Decision Making and Problem Solving	290
Decision Making as a Component of Problem Solving	290
Programmed versus Nonprogrammed Decisions	292
Structured, Semistructured, and Unstructured Decisions	292
Optimization, Satisficing, and Heuristic Approaches	293
Benefits of Information and Decision Support Systems	295
An Overview of Management Information Systems	296
Management Information Systems in Perspective	296
Inputs to a Management Information System	297

4	Outputs of a Management Information System	297
	Characteristics of a Management Information System	300
	Functional Aspects of the MIS	300
	Financial Management Information Systems	301
	Manufacturing Management Information Systems	304
	Marketing Management Information Systems	307
	Human Resource Management Information Systems	312
	Other Management Information Systems	315
	An Overview of Decision Support Systems	316
	Ethical & Societal Issues: You Want to Put That <i>Where</i> ?	317
	Characteristics of a Decision Support System	319
	Capabilities of a Decision Support System	320
	A Comparison of DSS and MIS	321
	Components of a Decision Support System	322
	The Database	322
	The Model Base	323
	The User Interface, or Dialogue Manager	323
	Group Decision Support Systems	324
	Characteristics of a GSS That Enhance Decision Making	324
	GSS Hardware and Software Tools	328
	GSS Alternatives	328
	Information Systems @ Work: Flaws in Group Support Systems	330
	CASE ONE: DSS Dashboards Spur Business Growth at Irish Life	338
	CASE TWO: Mando: Streaming Inventory Management for Growth	338

7 Knowledge Management and Specialized Information Systems 342

	Caesaria, Israel	343
	Knowledge Management Systems	344
	Overview of Knowledge Management Systems	345
	Data and Knowledge Management Workers and Communities of Practice	346
	Obtaining, Storing, Sharing, and Using Knowledge	347
	Technology to Support Knowledge Management	348
	Overview of Artificial Intelligence	349
	Information Systems @ Work: Knowledge Management Improves Customer Support at Canon	350
	Artificial Intelligence in Perspective	351
	Nature of Intelligence	352
	Brain Computer Interface	354
	Major Branches of Artificial Intelligence	354
	Expert Systems	354
	Robotics	354
	Vision Systems	355
	Ethical & Societal Issues: Next Generation Identification Database	357
	Natural Language Processing and Voice Recognition	358
	Learning Systems	359
	Neural Networks	359
	Other Artificial Intelligence Applications	360
	Overview of Expert Systems	361
	Components of Expert Systems	361
	Inference Engine	363

Explanation Facility	363
Knowledge Acquisition Facility	364
User Interface	364
Participants in Developing and Using Expert Systems	364
Expert Systems Development Tools and Techniques	365
Multimedia and Virtual Reality	366
Overview of Multimedia	366
Overview of Virtual Reality	370
Interface Devices	371
Forms of Virtual Reality	372
Virtual Reality Applications	372
Other Specialized Systems	374
CASE ONE: Knowledge Management Facilitates Energy Innovation	383
CASE TWO: Vision Technologies Automate Urban Inspections	384

PART 4**Systems Development 389****8 Systems Development 390**

Digital Delta, The Netherlands	391
An Overview of Systems Development	392
Participants in Systems Development	393
Information Systems Planning	394
Traditional Systems Development Life Cycle	395
Information Systems @ Work: Queensland Health Payroll Debacle	398
Ethical & Societal Issues: Raspberry Pi and Building a Programming Society	400
Useful Software Development Techniques	403
Alternate Systems Development Life Cycles and Approaches	408
Prototyping	408
Agile Development	408
Object-Oriented Systems Development	412
Mobile Application Development	414
User Systems Development	415
Tips to Avoid Project Failure	416
Executives Fail to Provide Leadership and Direction	418
Project Scope Is Unclear or Not Managed	418
Expectations Are Poorly Managed	418
Insufficient User Involvement	419
Organization Not Prepared for Change	419
Poor Planning	419

CASE ONE: System Testing Reveals Problems in the Kill Vehicle Program 427

CASE TWO: Improving Requirements Implementation at Honeywell 428

PART 5**Information Systems in Business and Society 431****9 The Personal and Social Impact of Computers 432**

Mt. Gox, Japan	433
Computer Waste and Mistakes	434
Computer Waste	434
Computer-Related Mistakes	435

Preventing Computer-Related Waste and Mistakes 436
 Establishing Policies and Procedures 436
 Implementing Policies and Procedures 438
 Monitoring Policies and Procedures 439
 Reviewing Policies and Procedures 439

Computer Crime 440

The Computer as a Tool to Commit Crime 441

Cyberterrorism 443

Identity Theft 444

Computer Theft 445

The Computer as a Tool to Fight Crime 446

Recovery of Stolen Property 446

Monitoring Criminals 446

Assessing Crime Risk for a Given Area 446

The Computer as the Object of Crime 448

Illegal Access and Use 448

Spyware 450

Information and Equipment Theft 451

Patent and Copyright Violations 452

Computer-Related Scams 454

International Computer Crime 455

Information Systems @ Work: The United States Charges the Chinese People's Liberation Army with Stealing Trade Secrets 456

Preventing Computer-Related Crime 457

Crime Prevention by State and Federal Agencies 457

Crime Prevention by Organizations 457

Crime Prevention for Individuals and Employees 462

Privacy Issues 464

Privacy and the Federal Government 465

Privacy at Work 466

Privacy and Email 467

Privacy and Instant Messaging 468

Privacy and Personal Sensing Devices 468

Privacy and the Internet 468

Privacy and Internet Libel Concerns 469

Privacy and Fairness in Information Use 470

Privacy and Filtering and Classifying Internet Content 470

Ethical & Societal Issues: IT Companies Leading Green Initiatives 472

Individual Efforts to Protect Privacy 473

Work Environment 475

Health Concerns 476

Avoiding Health and Environmental Problems 476

Ethical Issues in Information Systems 478

CASE ONE: Net Neutrality in the EU and the United States 484

CASE TWO: Protecting Health Care Privacy 485

Glossary 490

Subject Index 498

Company Index 510
