

<i>Quang A Dang, Quang Long Dang</i> : Existence results and iterative method for fully third order nonlinear integral boundary value problems	657
<i>Papri Majumder</i> : Unified error analysis of discontinuous Galerkin methods for parabolic obstacle problem	673
<i>Mohamed Mourad Lhannafi Ait Yahia, Hamid Haddadou</i> : A general homogenization result of spectral problem for linearized elasticity in perforated domains	701
<i>Youness Mezzan, Moulay Hicham Tber</i> : An instantaneous semi-Lagrangian approach for boundary control of a melting problem	725
<i>Yuesheng Luo, Ruixue Xing, Xiaole Li</i> : A new energy conservative scheme for regularized long wave equation	745
<i>Faranak Goodarzi, Mohammad Amini, Gholam Reza Mohtashami Borzadaran</i> : On lower bounds for the variance of functions of random variables	767
<i>Kassimu Mpungu, Tijani A. Apalara, Mukhiddin Muminov</i> : On the stabilization of laminated beams with delay	789
