

CONTENT

CHAPTER 1

7

General introduction

CHAPTER 2

29

The role of energy reserves in common carp performance inferred from phenotypic and genetic parameters

CHAPTER 3

43

The genetics of overwintering performance in two-year old common carp and its relation to performance until market size

CHAPTER 4

63

Genetic relationship between koi herpesvirus disease resistance and production traits inferred from sibling performance in Amur mirror carp

CHAPTER 5

71

Morphological predictors of slaughter yields using 3D digitizer and their use in a common carp breeding program

CHAPTER 6

83

Simplified method for genetic slaughter yields improvement in common carp under European pond conditions

CHAPTER 7

105

General discussion 107
