

Contents

1	Wood Moisture and the Environment	
1.1	Humidity and Vapor Pressure of Water	1
1.2	Measurement of Wood Moisture Content and Humidity .	7
1.2.1	Measurement of Wood Moisture Content	7
1.2.1.1	Gravimetric Method	8
1.2.1.2	Distillation Method	10
1.2.1.3	Karl Fischer Titration Method	11
1.2.1.4	Nuclear Magnetic Resonance	11
1.2.1.5	Electrical Moisture Meters.....	13
1.2.1.6	Miscellaneous Methods	14
1.2.2	Measurement of Relative Humidity	15
1.2.2.1	Hygrometers.....	16
1.2.2.2	Dew-Point Sensors	17
1.2.2.3	Psychrometers	18
1.2.2.4	Humidity Probes in Wood	19
1.3.	Moisture Content of Green Wood	20
1.4.	Equilibrium Moisture Content of Wood	22
1.4.1	Effect of Relative Humidity.....	23
1.4.2	Effect of History (Sorption Hysteresis)	24
1.4.3	Effect of Temperature	28
1.4.4	Miscellaneous Factors	31
1.5	Moisture Content of Wood in Use	32
1.6	Fiber-Saturation Point.....	35
1.7	Moisture Content and Strength of Wood	42
2	Moisture Sorption Thermodynamics	
2.1	Introduction	46
2.2	Thermodynamic Properties of Water	46
2.3	Enthalpy Changes During Moisture Sorption.....	53
2.3.1	Differential Heat of Sorption	53
2.3.2	Heat of Wetting and Integral Heat of Sorption....	60
2.3.3	Significance of Heats of Wetting and of Sorption .	63
2.3.3.1	Heat of Sorption	63
2.3.3.2	Heat of Wetting	64
2.4	Free-Energy and Entropy Changes During Moisture Sorption.....	66
2.5	Moisture Sorption and Specific Heat of Wood	67
2.6	Swelling Pressure of Wood.....	72
2.7	Mechanical Stress and Sorption (Hygroelastic Effect)....	77
2.8	Mechanical Stress and Sorption Hysteresis	83

3	Theories of Water Sorption by Wood	
3.1	Introduction	86
3.2	Moisture Sorption Theories and Equations.....	88
3.2.1	Dent Sorption Theory	89
3.2.2	BET Sorption Theory	97
3.2.3	Hailwood-Horrobin Sorption Theory	103
3.2.4	Peirce Sorption Theory	107
3.2.5	Enderby-King Sorption Equations	110
3.2.6	Bradley and Related Sorption Equations	112
3.2.7	Capillary Condensation and Sorption	114
3.2.8	Malmquist's Sorption Model	117
3.2.9	Additional Sorption Isotherm Equations.....	120
4	Hygroexpansion in Wood	
4.1	Introduction	122
4.2	Definition of Terms	122
4.3	Volumetric Hygroexpansion of the Wood Cell Wall	125
4.4	Volumetric Hygroexpansion of Wood.....	127
4.4.1	Maximum Volumetric Shrinkage and Swelling	127
4.4.2	Volumetric Hygroexpansion Coefficients	132
4.5	Directional Hygroexpansion in Wood.....	138
4.5.1	Longitudinal Hygroexpansion	140
4.5.2	Radial and Tangential Hygroexpansion	149
4.6	Hygroexpansion and Mechanical Stress	164
4.7	Reducing Hygroexpansion in Wood	170
5	Moisture Movement in the Wood Cell Wall	
5.1	Introduction	177
5.2	Isothermal Moisture Diffusion	178
5.2.1	General Mechanism of Bound-Water Diffusion	178
5.2.2	Eyring's Absolute Reaction Rate Theory	185
5.2.3	Moisture Content as a Driving Force	187
5.2.4	Vapor Pressure as a Driving Force	187
5.2.5	Chemical Potential as a Driving Force.....	190
5.2.6	Osmotic Pressure as a Driving Force	193
5.2.7	Spreading Pressure as a Driving Force	193
5.3	Irreversible Thermodynamics and Nonisothermal Diffusion	199
5.3.1	Introduction	199
5.3.2	Derivation of Coupled Flow Equations	199
6	Electrical Properties of Wood	
6.1	Introduction	207
6.2	Electrical Resistance	207
6.2.1	Introduction	207
6.2.2	Inherent Variables Affecting Resistivity	208
6.2.2.1	Effect of Moisture Content and Species.....	208

6.2.2.2	Effect of Temperature on Resistivity	211
6.2.2.3	Effect of Structural Orientation	216
6.2.2.4	Effect of Chemical Constituents	216
6.2.2.5	Effect of Wood Density	218
6.2.3	External Variables Affecting Resistivity	219
6.2.3.1	Electrode Configuration	219
6.2.3.2	Contact Pressure	224
6.2.3.3	Sample Shape and Dimensions	225
6.2.3.4	Electrolytic Effects	226
6.2.3.5	Voltage Magnitude and Duration of Application	227
6.2.4	Theory of Electrical Conduction in Wood	229
6.3	Dielectric Properties	237
6.3.1	Dielectric Principles	237
6.3.1.1	Dipole Polarization (Debye Effect)	240
6.3.1.2	Interfacial Polarization (Maxwell-Wagner Effect)	244
6.3.2	Dielectric Properties of Water	246
6.3.3	Dielectric Properties of Dry Wood	247
6.3.4	Dielectric Properties of Moist Wood	252
6.3.4.1	Primary Dispersion in Moist Wood	253
6.3.4.2	Secondary Dispersion in Moist Wood	258
6.4	Electrical Moisture Meters	260
6.4.1	Resistance Moisture Meters	261
6.4.2	Dielectric Moisture Meters	262
	References	263
	Subject Index	275
	List of Symbols	281
	List of Subscripts	283
