

Table of Contents

Preface

ix

Chapter 1 Filter Design, Operation and Management

1.1	Water treatment by slow sand filtration - considerations for design, operation and maintenance. J.T.Visscher.	1
1.2	Slow sand filtration: an approach to practical issues. I.P.Toms and R.G.Bayley.	11
1.3	Slow sand filtration in the United States. G.S.Logsdon and K.R.Fox	29
1.4	Improvement of slow sand filtration - application to the Ivry rehabilitation project. A.Montiel, B.Welte and J.M.Barbier.	47
1.5	Management of slow sand filters in respect to ground water quality. H.Sommer.	91

Chapter 2 Pretreatment Methods

2.1	Roughing gravel filters for suspended solids removal. M.Wegelin.	103
2.2	Upflow coarse-grained prefilter for slow sand filtration. L.Di Bernardo.	123
2.3	Pretreatment with pebble matrix filtration. K.J.Ives and J.P.Rajapakse.	141
2.4	Ozonation and slow sand filtration for the treatment of coloured upland waters - pilot-plant investigations. G.F.Greaves, P.G.Grundy and G.S.Taylor	153

Chapter 3 Biological Aspects

- 3.1 The ecology of slow sand filters. 163
A.Duncan.
- 3.2 Some aspects of the filtration of water 181
containing centric diatoms.
K.B.Clarke.
- 3.3 Development of a slow sand filter model as a 191
bioassay.
C.Schmidt.
- 3.4 The removal of viruses by filtration through sand. 207
D.Wheeler, J.Bartram and B.Lloyd.

Chapter 4 Process Performance

- 4.1 The effects of high-carbon and high coliform 231
feed waters on the performance of slow sand
filters under tropical conditions.
J.M.Barrett and J.Silverstein.
- 4.2 Benefits of covered slow sand filtration. 253
J.A.Schellart.
- 4.3 Comparisons between activated carbon and slow sand 265
filtration in the treatment of surface waters.
J.Mallevalle and J.P.Duguet.
- 4.4 Modifications to the slow rate filtration process 281
for improved trihalomethane precursor removal.
M.R.Collins and T.T.Eighmy.

Chapter 5 Process Developments

- 5.1 Pilot plant evaluation of fabric-protected slow 305
sand filters.
T.S.A.Mbwette and N.J.D.Graham.
- 5.2 Advanced techniques for upgrading large scale slow 331
sand filters.
A.J.Rachwal, M.J.Bauer and J.T.West
- 5.3 Developments in modelling slow sand filtration. 349
C.A.Woodward and C.T.Ta.
- 5.4 The application of polyurethane to improve slow 367
sand filters.
P.Vochten, J.Liessens and W.Verstraete.

Chapter 6 **Developing Country Case Studies**

- 6.1 Dual media filtration for the rehabilitation of 379
 an existing slow sand filter in Zimbabwe.
 T.F.Ryan.
- 6.2 The performance of slow sand filters in Peru. 393
 B.Lloyd, M.Pardon and D.Wheeler.
- Subject index** 413
