1	Electrical Systems and Mechatronics	1
1.1	Wiring Harness	2
1.2	Power Supply	3
1.2.1	Network Management	5
1.2.2	Starter Battery	5
1.3	Lighting	9
1.3.1	Monitoring the Lighting Function	11
1.3.2	Automated Light Functions	11
1.3.3	Interior Illumination	11
1.4	Horn and Other Acoustic Signals	12
1.5	Mechatronic System Modules	12
1.5.1	Data Bus Systems	14
1.5.2	Electronic Control Units	18
1.5.3	AUTOSAR	18
1.5.4	Sensors	20
1.5.5	Switches and Control Levers	20
1.5.6	Actuators	20
1.6	The Overall Mechatronic System	23
1.6.1	Functional Concept	23
1.6.2	Architecture	23
1.6.3	Diagnostics and Flashing	24
1.6.4	Electromagnetic Compatibility EMC	25
1.7	Instruments and Displays	26
1.7.1	Main Instrument Panel	27
2	Pneumatics System	29
3	Brake System	33
3.1	Wheel Brake or Foundation Brakes	36
3.1.1	Drum Brake	37
3.1.2	Disc Brake	40

3.2	Brake Cylinder	40
3.3	Parking Brake or Handbrake	43
3.4	Pneumatic Brake System	43
3.5	Anti-Lock Braking System – ABS	44
3.6	Traction Control, Traction Control System (TCS).	46
3.7	Electronic Stability Program – ESP	46
3.8	Braking the Trailer	48
3.9	Other Brake Functionalities and Components	49
3.10	Electropneumatic Brake	51
4	Advanced Driver Assistance Systems	53
4.1	Advanced Driver Assistance Systems for Longitudinal Guidance	53
4.2	Driver Assistance Systems for Lateral Guidance	56
4.3	General Aids Through Driver Assistance Systems	57
4.4	Driver Assistance Systems in Support of Visibility	59
4.5	Autonomous Driving	60
5	Telematic Systems	63
