On the Cover

Established on October 24, 1945, the United Nations succeeded the League of Nations as the international intergovernmental organization committed to maintaining world peace, protecting human rights, delivering humanitarian aid, promoting sustainable development, and upholding international law. In 1947, the General Assembly resolution 167 (II) approved the now iconic light blue for the United Nations flag. This distinctive color has come to represent the UN. The recognizable blue helmet is worn by UN peacekeepers at hot spots and conflict zones all over the globe, keeping enemies apart and maintaining ceasefires. The associated laurel wreath and olive branch have been peace symbols since antiquity. Image © PIRON 2 INTERACTIVE LLC, used with permission.
