|---|-----|
| Preface | 7 |
| 1. Introduction | 9 |
| Roald Sætre | |
| 2. Studies of the coastal region | 19 |
| Background and history | |
| Roald Sætre | |
| 3. The origin of the coastal zone | 35 |
| Terje Thorsnes and Oddvar Longva | |
| 4. Driving forces | 45 |
| Roald Sætre | |
| 5. Properties of the coastal water masses | 59 |
| Roald Sætre | |
| 6. Temporal and spatial distribution of nutrients | 73 |
| Francisco Rey, Jan Aure and Didrik S. Danielssen | |
| 7. Short-term variability and small-scale features | 89 |
| Roald Sætre | |
| 8. Characteristic circulation features | 99 |
| Roald Sætre and Jan Aure | |
| 9. Coast/fjord water exchange | 115 |
| Jan Aure, Lars Asplin and Roald Sætre | |
| 10. Climate changes in the Norwegian Coastal Current | 125 |
| Roald Sætre, Jan Aure and Didrik S. Danielssen | |
| 11. Operational oceanography | 139 |
| – Challenges and possibilities | |
| Johnny A. Johannessen, Bruce Hackett, Einar Svendsen, Henrik Søiland, Lars P. Røed, Nina Winther, Jon Albretsen, Didrik S. Danielssen, Lasse Petterson, Morten Skogen and Laurent Bertino | |
| 12. References | 151 |
| The Authors | 159 |
