

TABLE OF CONTENTS

SUMMARY

Preface	x
---------------	---

UNIT ONE **FUNDAMENTAL COMPUTER AND DOS CONCEPTS**

CHAPTER ONE	Introduction to Computers and IBM PC-DOS.....	1.1
-------------	---	-----

UNIT TWO **SPREADSHEETS — SUPERCALC3**

CHAPTER TWO	Building a Spreadsheet	2.1
CHAPTER THREE	Formatting a Spreadsheet	3.1
CHAPTER FOUR	Printing the Spreadsheet	4.1
CHAPTER FIVE	Replication; What-If Questions	5.1

UNIT THREE **DATABASE MANAGEMENT SYSTEMS — dBASE III**

CHAPTER SIX	Creating and Displaying a Database	6.1
CHAPTER SEVEN	Displaying Records in a Database	7.1
CHAPTER EIGHT	Sorting and Report Preparation.....	8.1
CHAPTER NINE	Adding, Deleting, and Changing Records in a Database.....	9.1

UNIT FOUR **WORD PROCESSING — WORDSTAR**

CHAPTER TEN	Creating and Printing a Document	10.1
CHAPTER ELEVEN	Modifying a WordStar Document	11.1
CHAPTER TWELVE	Block Commands and Find/Replace	12.1
CHAPTER THIRTEEN	Additional WordStar Commands	13.1
	Index.....	I.1

UNIT ONE **FUNDAMENTAL COMPUTER AND DOS CONCEPTS**

CHAPTER ONE **INTRODUCTION TO** **COMPUTERS AND IBM PC-DOS**

What is a computer	1.1	Systems software	1.12
What is data?	1.2	IBM Personal Computer Disk Operating	
The components of a computer.	1.2	System (PC-DOS)	1.13
Input units	1.3	Directory command (DIR)	1.16
Processor unit	1.4	Executing a program	1.20
Output units	1.4	Executing SuperCalc3, dBASE III, and	
Printers	1.4	WordStar 3.3	1.21
Personal computer display screens	1.6	Formatting a diskette	1.22
Auxiliary storage	1.7	CLS command	1.24
Diskettes	1.7	External and internal commands	1.24
Fixed disk	1.9	Recording data files on diskettes	1.24
Components of an IBM Personal		COPY command	1.25
Computer	1.10	RENAME command	1.28
Computer software	1.11	ERASE command	1.29
Application software	1.11	DEL command	1.30
Spreadsheet application software	1.11	Summary — IBM PC-DOS	1.30
Database management application software	1.12	Student assignments	1.31
Word processing software	1.12		

CHAPTER TWO

BUILDING A SPREADSHEET

Steps to build a spreadsheet	2.1	GoTo command	2.15
Executing the SuperCalc3 program	2.2	Entering formulas	2.16
The SuperCalc3 spreadsheet	2.2	Saving a spreadsheet	2.20
Status lines	2.3	Correcting errors	2.22
Entering data	2.4	Summary	2.26
Entering text data	2.8	Student assignments	2.27
Entering numeric data	2.13		

CHAPTER THREE

FORMATTING A SPREADSHEET

Loading a spreadsheet	3.2	Correcting errors in slash commands	3.30
Repeating text	3.13	Summary	3.31
SUM function	3.19	Student assignments	3.32
Division operation	3.21		
Formatting the screen – user-defined formats	3.22		

CHAPTER FOUR

PRINTING THE SPREADSHEET

Loading the spreadsheet	4.1	Printing the spreadsheet contents	4.8
Printing the spreadsheet	4.2	Printing a section of the spreadsheet	4.10
Printing a report without the spreadsheet borders	4.4	Student assignments	4.12

CHAPTER FIVE

REPLICATION; WHAT-IF QUESTIONS

Formatting the spreadsheet	5.2	Global slash command — formula option	5.18
TODAY function	5.5	Saving spreadsheets	5.28
Centering text data	5.6	Printing the spreadsheet	5.29
Copy slash command	5.8	What-If questions	5.31
Integer format	5.10	Summary	5.34
Title slash command	5.12	Student assignments	5.35

CHAPTER SIX

CREATING AND DISPLAYING A DATABASE

Using dBASE III	6.1	Creating the database	6.7
Planning the database	6.3	Correcting errors	6.22
Defining the structure of the database	6.3	Viewing previous records when entering data ...	6.25
Defining the field names	6.3	EDIT command	6.26
Defining the field type	6.4	DISPLAY ALL and LIST commands	6.26
Defining the width and decimal position	6.5	QUIT command	6.27
Database file names	6.5	HELP command	6.27
Loading dBASE III	6.5	Student assignments	6.28
Clearing the screen	6.6		

CHAPTER SEVEN

DISPLAYING RECORDS IN A DATABASE

DIR command	7.1	DISPLAY FOR command	7.8
USE command	7.1	Searching for a name	7.10
DISPLAY STRUCTURE command	7.2	Displaying logical fields	7.13
LIST command	7.3	Logical operators	7.13
DISPLAY OFF option	7.4	COUNT command	7.15
Displaying selected fields	7.4	SUM command	7.16
DISPLAY RECORD command	7.6	AVERAGE command	7.17
DISPLAY NEXT command	7.6	Summary	7.18
GO and GOTO commands	7.7	Student assignments	7.19

CHAPTER EIGHT

SORTING AND REPORT PREPARATION

SET DEFAULT TO command	8.3	Designing the output	8.12
Sorting	8.4	Using dBASE III to create the report	8.14
SORT command	8.5	Printing a report	8.31
Displaying the sorted file	8.7	Preparing a report using selected records from a file	8.32
Sorting records in descending sequence	8.8	Reports with subtotals	8.33
Sorting sequence	8.9	Summary	8.35
Sorting selected records from a file	8.10	Student assignments	8.36
Sorting on more than one field	8.11		
Creating reports	8.12		

CHAPTER NINE

ADDING, DELETING, AND CHANGING RECORDS IN A DATABASE

Adding records to a file	9.1	CHANGE command	9.9
INSERT command	9.3	BROWSE command	9.9
Deleting records from a file	9.5	Summary	9.11
PACK command	9.7	Student assignments	9.12
Changing records in a file	9.7		

CHAPTER TEN

CREATING AND PRINTING A DOCUMENT

Creating the document	10.1	Reform command and cursor control commands	10.19
Executing the WordStar program	10.3	Saving a file	10.22
Opening menu	10.4	Printing a file	10.24
File directory indicator	10.4	Printed report	10.26
Opening menu commands	10.6	Correcting errors	10.27
Opening a document file	10.6	Backspacing and typing over text	10.27
Main menu	10.8	Cursor diamond	10.30
Insert mode	10.9	Additional cursor movement commands	10.30
Entering text	10.11	Summary	10.36
Right justified text	10.16	Student assignments	10.37
Onscreen menu	10.16		

CHAPTER ELEVEN

MODIFYING A WORDSTAR DOCUMENT

Formatting a printed report with dot commands	11.8	Saving and printing the file	11.15
Setting margins	11.10	Summary	11.18
Reforming the text	11.12	Student assignments	11.19

CHAPTER TWELVE

BLOCK COMMANDS AND FIND/REPLACE

Preparing to develop the document	12.2	Block delete command	12.14
Help menu	12.2	Block moves	12.18
Underlining and bold printing	12.4	Find and replace	12.21
Tabbing and indenting paragraphs	12.8	Summary	12.24
Saving documents	12.11	Student assignments	12.26
Block commands and Find/Replace	12.14		

CHAPTER THIRTEEN

ADDITIONAL WORDSTAR COMMANDS

File processing commands	13.1	Ruler line	13.11
Block menu commands	13.3	Setting line spacing	13.12
Screen and cursor movement commands	13.5	Printed page formatting	13.13
Place markers	13.8	Page headings	13.13
Screen formatting and control commands	13.9	Footing commands	13.15
Tab commands	13.9	Page breaks	13.15
Setting tabs	13.10	Summary	13.17
