

PAPERS

- 5 **Influence of input parameters in radial compressor design algorithm on the efficiency and its sensitivity analysis**
Kovář P., Kaňka T., Mačák P., Tater A., Vampola T.
- 19 **Boundary effects of a nonconcentric semipermeable sphere using Happel and Kuwabara cell models**
Krishna Prasad M.
- 31 **The effects of the printing direction and UV artificial degradation on the mechanical properties using AM PolyJet technology**
Matušů M., Blaha D., David P., Padovec Z., Růžička P., Řezníček J., Růžička M.
- 45 **Interaction of a finite crack with shear waves in an infinite magnetoelastic medium**
Panja S. K., Mandal S. C.
- 57 **Cutting brittle rods using elastic wave propagation**
Šidlof P., Pustka M., Braier Z.
- 69 **Behavior of high-density polyethylene at high strain rates**
Trnka J., Nezbedová E., Kober J., Buchar J.
- 85 **Mechanics of air-inflated 3D distance fabric**
Votrubec V., Žák J.
