<i>List of Figures</i>	ix
<i>List of Tables</i>	xiii
<i>Preface</i>	xv

PART I DRIVER PERSONALITY, EMOTIONS AND STRESS

1	Driven by Anger: The Causes and Consequences of Anger during Virtual Journeys	3
	<i>Amanda N. Stephens and John A. Groeger</i>	
2	Urban and Rural Differences in Attitudes Related to Risky Driving Behaviour: The Role of Sensation Seeking and Risk Perception	17
	<i>Matthew Coogan, Sonja Forward, Jean-Pascal Assailly and Thomas Adler</i>	
3	Executive Function Development and Stress Effects on Driving Performance: Preliminary Findings from a Young Adult Sample	35
	<i>Melanie J. White, Ross McD. Young and Andry Rakotonirainy</i>	
4	Effects of Sadness on Drivers' Behaviour: An Empirical Study Using Emotional Induction and a Driving Simulator	43
	<i>Christelle Pêcher, Céline Lemerrier and Jean-Marie Cellier</i>	

PART II DRIVER DISTRACTION AND INATTENTION

5	A Roadside Survey of Driving Distractions in Austria	53
	<i>Mark Sullman and Max Metzger</i>	
6	Personality and Demographic Predictors of Aggressive and Distracted Driving	63
	<i>Harold Stanislaw</i>	
7	Impact of Inattention Provoked by Sadness on Older Drivers' Behaviour	77
	<i>Céline Lemerrier and Christelle Pêcher</i>	

- 8 Distracting Effects of Radio News and the Effects on Train Operator Performance 85
Masayoshi Shigemori, Ayanori Sato, Yusuke Shinpo and Nobuo Ohta

PART III VULNERABLE ROAD USERS

- 9 Typical Human Errors in Traffic Accidents Involving Powered Two-Wheelers 95
Magali Jaffard and Pierre van Elslande
- 10 Applicability of Learner Driver Research to Learner Motorcyclists 105
Narelle Haworth and Peter Rowden
- 11 Influence of Cognitive Bias on Young Cyclists' Road Crossing Intentions at Non-Signalized Intersections 113
Yasunori Kinosada and Shinnosuke Usui

PART IV HAZARD PERCEPTION AND RISK

- 12 Driver Fatigue: The Perils of Vehicle Automation 127
Gerald Matthews, Catherine E. Neubauer, Dyani J. Saxby and Lisa K. Langheim
- 13 Knowledge of Traffic Hazards: Does it Make a Difference for Safety? 141
Anders af Wåhlberg and Lisa Dorn
- 14 The Theory of Planned Behaviour (TPB) and Speeding Behaviour of Young Drivers 149
Catherine Ferguson, Lynne Cohen, Julie Ann Pooley and Andrew Guilfoyle
- 15 Older Drivers' Hazard Perception Performance 157
Tania Dukic, Emelie Eriksson and Fridulv Sagberg
- 16 Predicting Traffic Accident Rates: Human Values Add Predictive Power to Age and Gender 167
Ivars Austers, Viesturs Renge and Inese Muzikante
- 17 Examining the Evidence that Drugs Impair Driving: Some Recent Findings from the Drugs and Driving Research Unit (DDRU) at Swinburne University 177
Con Stough, Rebecca King, Luke Downey and Edward Ogden

18	Effects of Snowfall on Seat-Belt Use <i>Özlem Şimşekoğlu and Timo Lajunen</i>	199
19	Differences in Driving Behaviours between Elderly Drivers and Middle-Aged Drivers at Intersections <i>Nozomi Renge, Masahiro Tada, Kazumi Renge and Shinnosuke Usui</i>	207
20	Older Drivers' Reasons for Continuing to Drive <i>Tsuneo Matsuura</i>	217
PART V DRIVER BEHAVIOUR AND DRIVING SIMULATION		
21	A Tandem Model of Proceduralization (Automaticity) in Driving <i>Samuel G. Charlton and Nicola J. Starkey</i>	233
22	Road-Rail Level Crossings: Expectations and Behaviour <i>Jessica Edquist, Christina M. Rudin-Brown and Michael Lenné</i>	251
23	Stochastic Changes in Driver Reaction Time with Arousal State <i>Takahiro Yoshioka, Shuji Mori, Yuji Matsuki and Osamu Uekusa</i>	261
PART VI TECHNOLOGY IN VEHICLES AND USER ACCEPTANCE		
24	Using Local Road Features and Participatory Design for Self-Explaining Roads <i>Samuel G. Charlton</i>	271
25	Behavioural Adaptation as a Consequence of Extended Use of Low-Speed Backing Aids <i>Christina M. Rudin-Brown, Peter C. Burns, Lisa Hagen, Shelley Roberts and Andrea Scipione</i>	285
26	Enhancing Sustainability of Electric Vehicles: A Field Study Approach to Understanding User Acceptance and Behaviour <i>Thomas Franke, Franziska Bühler, Peter Cocron, Isabel Neumann and Josef F. Krems</i>	295
	<i>Index</i>	307
