## Part I Ligaments, Tendons, and Menisci

1. Structure and Function of Normal and Healing Tendons and Ligaments A. Viidik	3
2. The Biology of Tendons and Ligaments C.B. Frank, D.A. Hart	39
3. Biomechanics and Morphology of the Medial Collateral and Anterior Cruciate Ligaments S.L-Y. Woo, J.A. Weiss, D.A. MacKenna	63
4. Biomechanics of the Anterior Cruciate Ligament and its Replacements D.L. Butler, Y. Guan	105
5. New Insights Into Load Bearing Functions of the Anterior Cruciate Ligament K.L. Markolf, J.F. Gorek, J.M. Kabo, M.S. Shapiro, G.A.M. Finerman	155
6. Structure and Biology of the Knee Meniscus S.P. Arnoczky	177
7. Structure and Function of the Meniscus: Basic and Clinical Implications M.A. Kelly, D.C. Fithian, K.Y. Chern, V.C. Mow	191

## Part II Cartilage Biomechanics

- |     |  |     |
|-----|--|-----|
| 8.  | Biphasic and Quasilinear Viscoelastic Theories for Hydrated Soft Tissues   | 215 |
|     | V.C. Mow, J.S. Hou, J.M. Owens, A. Ratcliffe   |     |
| 9.  | Physicochemical and Bioelectrical Determinants of Cartilage Material Properties                                  | 261 |
|     | E.H. Frank, A.J. Grodzinsky, S.L. Phillips, P.E. Grimshaw  |     |
| 10. | A Triphasic Theory for the Swelling Properties of Hydrated Charged Soft Biological Tissues                       | 283 |
|     | W.M. Lai, J.S. Hou, V.C. Mow   |     |
| 11. | Viscometric Properties of Proteoglycan Solutions at Physiological Concentrations                                 | 313 |
|     | W.B. Zhu, V.C. Mow   |     |
| 12. | Osmotic and Hydraulic Flows in Proteoglycan Solutions  | 345 |
|     | W.D. Comper  |     |
| 13. | Water Content and Solute Diffusion Properties in Articular Cartilage   | 363 |
|     | P.A. Torzilli, E. Askari, J.T. Jenkins   |     |
| 14. | Biomechanical Properties of Healing Cartilage  | 391 |
|     | M.K. Kwan, S.L-Y. Woo  |     |
| 15. | Alternate Hybrid, Mixed, and Penalty Finite Element Formulations for the Biphasic Model of Soft Hydrated Tissues | 401 |
|     | R.L. Spilker, J-K. Suh, M.E. Vermilyea, T.A. Maxian  |     |
| 16. | Characteristics of Joint Loading as it Applies to Osteoarthritis   | 437 |
|     | E.L. Radin, D.B. Burr, D. Fyhrie, T.D. Brown, R.D. Boyd  |     |

## Part III Bone Biomechanics

- |     |                           |
|-----|---------------------------|
| 17. | Function and Form of Bone |
|     | J.D. Currey               |

18. Multiaxial Structure-Property Relations in Trabecular Bone  
B.D. Snyder, W.C. Hayes
19. The Mechanical and Remodeling Properties of Trabecular Bone  
S.A. Goldstein, S.J. Hollister, J.L. Kuhn, N. Kikuchi
20. Age-Related Loss of Vertebral Trabecular Bone Mass and Structure - Biomechanical Consequences  
L. Mosekilde
21. Biologic Modulation of Mechanical Influences in Bone Remodeling  
C.T. Rubin, K.J. McLeod
22. Properties of Cortical Bone and Theory of Bone Remodeling  
S.C. Cowin
23. Mechanical Stresses in Joint Morphogenesis and Maintenance  
D.R. Carter, M. Wong
24. Streaming Potential in Bone  
A.F.T. Mak

#### Part IV Joint Biomechanics

25. Kinematics and Mechanics of the Cruciate Ligaments of the Knee  
J.J. O'Connor, A. Zavatsky
26. Stereophotogrammetric Determination of Joint Anatomy and Contact Areas  
L.J. Soslowsky, G.A. Ateshian, V.C. Mow
27. The Relationship Between Knee Motion and Articular Surface Geometry  
R. Huiskes, L. Blankevoort
28. Viscoelastic Behaviour of Synovial Fluids and Artificial Replacements  
V.O. Ribitsch

29. **Bio-Tribology of Natural and Replacement Synovial Joints**  
D. Dowson
30. **Squeeze Film Lubrication for Articular Cartilage with Synovial Fluid**  
J.S. Hou, M.H. Holmes, W.M. Lai, V.C. Mow
31. **Joint Physiology and Biomechanics**  
E.L. Radin, D. Fyhrie
32. **Finite Element Analysis of Bones and Joints: Some Applications to Femoral Head Osteonecrosis**  
T.D. Brown
33. **Kinematics of Human Shoulder Motion**  
A.E. Engin
34. **Biomechanics of the Elbow**  
K-N. An, B.F. Morrey
35. **Kinematics and Mechanics of the Cruciate Ligaments of the Knee**  
J.L. Costello, A. Zavras, R.L. Snyder, R.M. Lupton, J.L. Cook, L.R. Cook
36. **Synovial Membrane Examination of Joint Anatomy and Contact Areas**  
E.L. Radin, D. Fyhrie, D. Barr, B.G. Barr, J.B. Cook, L.L. Szolowsky, D.A. Archibald, V.C. Mow
37. **The Relationship Between Knee Motion and Articular Surface Geometry**  
R. Huisse, I. Blankvoort
38. **Viscoelastic Behaviour of Synovial Fluids and Articular Replacements**  
V.O. Ribiich
39. **Function and Form of the Hip**  
J.D. Curry
