

Contents

1 Introduction	1
Jacques Cabaret, Serge Morand, and François Beaudeau	
Part I Methods and Tools in Molecular Epidemiology	
2 Molecular Typing of Bacterial Pathogens: A Tool for the Epidemiological Study and Control of Infectious Diseases	9
Marie Hallin, Ariane Deplano, and Marc J. Struelens	
Part II Contribution of Population Genetics	
3 Molecular Epidemiology and Evolutionary Genetics of Infectious Diseases	29
Michel Tibayrenc	
4 Population Genetics and Molecular Epidemiology of Infectious Diseases	45
Christine Chevillon, Thierry de Meeûs, and Karen D. McCoy	
Part III Contribution of Population and Evolutionary Epidemiology	
5 Modelling the Dynamics of Host-Parasite Interactions: Basic Principles	79
Pauline Ezanno, Elisabeta Vergu, Michel Langlais, and Emmanuelle Gilot-Fromont	
6 Evolution of Virulence: Intuitions and Models	103
Jean-Baptiste Ferdy and Sylvain Gandon	

Part IV Case Studies

- 7 Molecular Epidemiology of Tuberculosis**..... 125
Philippe Lanotte
- 8 *Pneumocystis* Molecular Phylogeny: A Way to Understand Both
Pneumocystosis Natural History and Host Taxonomy** 149
Magali Chabé, Jean-Pierre Hugot, and Eduardo Dei-Cas
- 9 Hantavirus Genetic Diversity**..... 179
Kim Blasdell, Heikki Henttonen, and Philippe Buchy

Part V New Integrations

- 10 Nasal carriage of Methicillin-Resistant Coagulase-Negative
Staphylococci: A Reservoir of *mecA* Gene for
*Staphylococcus aureus***..... 219
Raymond Ruimy, François Barbier, David Lebeaux,
Etienne Ruppé, and Antoine Andremont
- 11 Molecular Knowledge of Mechanisms of Helminth Resistance:
Importance for Diagnostic and Epidemiology**..... 239
Anne Silvestre and Jacques Cabaret
- 12 Molecular Epidemiology of Disease Resistance
Genes with Perspectives for Researches on Biological
Invasions and Hybrid Zones** 255
Nathalie Charbonnel and Jean-François Cosson
- 13 How Does Biodiversity Influence the Ecology
of Infectious Disease?**..... 291
Gwenaél Vourc'h, Olivier Plantard, and Serge Morand
- 14 Epidemiological Interaction at the Wildlife/Livestock/Human
Interface: Can We Anticipate Emerging Infectious Diseases
in Their Hotspots? A Framework for Understanding Emerging
Diseases Processes in Their Hot Spots**..... 311
Alexandre Caron, Serge Morand, and Michel de Garine-Wichatitsky
- 15 Conclusion** 333
Serge Morand, Jacques Cabaret, and François Beaudeau
- Index**..... 337
