

Contents

- 1 An Abbreviated History of Medical 3D Printing, 1**
Andy Christensen, BS, FSME
 - 2 Medical Imaging Technologies and Imaging Considerations for 3D Printed Anatomic Models, 11**
Nicole Wake, PhD, Jana Vincent, PhD and Fraser Robb, PhD
 - 3 Image Segmentation and Nonuniformity Correction Methods, 31**
Jingyun Chen, PhD, Louisa Bokacheva, PhD and Henry Rusinek, PhD
 - 4 Computer-Aided Design Principles for Anatomic Modeling, 45**
Sarah Rimini, BS, RT(R) (MR) (ARRT), Jana Vincent, PhD and Nicole Wake, PhD
 - 5 3D Printing Principles and Technologies, 61**
Peter Liacouras, PhD and Nicole Wake, PhD
 - 6 3D Printed Anatomic Models and Guides, 75**
Amy E. Alexander, BME, MS and Nicole Wake, PhD
 - 7 Quality Assurance of 3D Printed Anatomic Models, 89**
Nicole Wake, PhD, Benjamin Johnson, BS and Shuai Leng, PhD, FAAPM
 - 8 Documentation and Reimbursement for 3D Printed Anatomic Models and Guides, 99**
Jane M. Matsumoto, MD and Kenneth C. Wang, MD, PhD
 - 9 Regulatory Perspectives for 3D Printing in Hospitals, 109**
Andy Christensen, BS, FSME and Nicole Wake, PhD
 - 10 3D Printing in Radiology Education, 117**
Judah Burns, MD, Mohammad Mansouri, MD and Nicole Wake, PhD
 - 11 3D Printing in Interventional Radiology, 131**
Kapil Wattamwar, MD and Nicole Wake, PhD
 - 12 3D Printing in Nuclear Medicine and Radiation Therapy, 143**
Alejandro Amor-Coarasa, PhD, Lee Goddard, MPhys, Pamela DuPré, MMP and Nicole Wake, PhD
 - 13 3D Printing in Forensic Radiology, 157**
Jonathan M. Morris, MD, R. Ross Reichard, MD and Kiaran P. McGee, PhD
 - 14 3D Printed Imaging Phantoms, 175**
Nicole Wake, PhD, Carlotta Ianniello, MS, Ryan Brown, PhD and Christopher M. Collins, PhD
 - 15 Considerations for Starting a 3D Printing Lab in the Department of Radiology, 191**
Nicole Wake, PhD
 - 16 The Future of Medical 3D Printing in Radiology, 201**
Adam E. Jakus, PhD, Yu-Hui Huang, MD, MS and Nicole Wake, PhD
- REFERENCE INDEX, 215**
SUBJECT INDEX, 223
