

Contents

1	Introduction	1
	Gavin J. Andrews, Valorie A. Crooks, Jamie R. Pearce, and Jane P. Messina	
Part I Theoretical Approaches and Perspectives		
2	Spatial Epidemiology: Challenges and Methods in COVID-19 Research	23
	Varun Goel and Michael Emch	
3	Disease Ecology	31
	Sadie Ryan	
4	COVID-19 and the Political Ecology of Global Food and Health Systems	39
	Eric D. Carter and William G. Moseley	
5	Setting a Death Trap: International Political Economy, COVID-19 Response and the Plight of Central American Migrants	47
	Neil Hanlon and Catherine Nolin	
6	Emergent Global Pandemic Risks, Complex Systems, and Population Health	55
	Sarah E. Curtis	
7	Eight Centuries of Epidemic and Pandemic Control	61
	Matthew Smallman-Raynor and Andrew D. Cliff	
8	Humanism and Social Constructionism	71
	Jamie Baxter	
9	Mapping the Post-structural Geographies of COVID-19	79
	Joshua Evans	

- 10 Non-representational Approaches to COVID-19** 85
Chloe Asker, Gemma Lucas, and Jennifer Lea
- Part II Substantive Issues**
- 11 How to Have Theory in a Pandemic: A Critical Reflection on the Discourses of COVID-19** 93
Tim Brown, Sydney Calkin, Kerry Holden, Simon Reid-Henry, and Stephen Taylor
- 12 Health Service Capacities, Responses and Practice** 101
Martin Powell and Sophie King-Hill
- 13 Informal Care: The Forgotten Frontlines of COVID-19** 107
Andrew Power and Rachel Herron
- 14 Resilience, Risk, and Policymaking** 113
Mark Scott
- 15 Managing Internationally Mobile Bodies in a World on Hold: Migration, Tourism, and Biological Citizenship in the Context of COVID-19** 119
Meghann Ormond
- 16 Mobility Is Dead: Post-pandemic Planning as an Opportunity to Prioritize Sustainability and Accessibility** 125
Justin Spinney
- 17 Media and Information in Times of Crisis: The Case of the COVID-19 Infodemic** 133
Yossi David and Elisabeth Sommerlad
- 18 The (Social Distanced) Circle of Family, Friends, and Allies: How COVID-19 Is Re-shaping Social Capital and New Opportunities for Research** 139
Amber L. Pearson
- 19 The Syndemic Pandemic: COVID-19 and Social Inequality** 147
Clare Bambra and Katherine E. Smith
- 20 Maintaining Wellbeing During and After COVID-19** 155
David Conradson
- 21 Pandemic Geographies of Physical Activity** 165
Stephanie E. Coen, Simon Cook, and Samuel J. Hayes
- 22 Surveillance, Control and Containment (Biopolitics)** 173
Stephen Hinchliffe

- 23 Contradictory and Compounding: The Social Implications of COVID-19** 179
Geoffrey DeVerteuil
- 24 Geographical Metaphors in Everyday Life** 185
Robin Kearns
- 25 Vaccine Geopolitics During COVID-19: How Pandemics Thicken Borders, Exacerbate Violence, and Deepen Existing Fault Lines.** 193
Jennifer Hyndman
- 26 Geographies of Digital Storytelling: Care and Harm in a Pandemic** 199
Jessica McLean and Sophia Maalsen
- 27 Animal Geographies in a Pandemic** 207
Richard Gorman
- 28 Environment and COVID-19: Unpacking the Links** 213
Blake Poland and Mira Ziolo
- Part III Places**
- 29 Home in Context of COVID-19** 227
Janine Wiles
- 30 Death, Devastation, and Failure in Long-Term Care: The Need for a Geographical Reengagement with the Sector** 233
David R. Phillips and Gavin J. Andrews
- 31 Refiguring Public Spaces?** 241
Paul Simpson
- 32 Consumer Spaces** 247
Alex Hughes
- 33 The Place, Labor, and Networks of Transportation During COVID-19** 253
Michael Widener and Julie Cidell
- 34 COVID-19: Pandemic on an Urban Planet** 259
Roger Keil
- 35 Geographies of the Rural and the COVID-19 Pandemic** 267
Andrew S. Maclaren and Lorna J. Philip
- 36 Global Spaces: COVID-19 and the Reconfiguring of Global Health** 275
Clare Herrick and David Reubi
- 37 Why Green and Blue Spaces Matter More Than Ever** 281
Ronan Foley and Marco Garrido-Cumbrera

- 38 COVID-19 in the Developing World: Curse or Blessing? 291**
Susan Elliott
- 39 Art-Spaces 299**
Sarah Atkinson
- Part IV People**
- 40 Practicing Self-Determination to Protect Indigenous Health in COVID-19: Lessons for This Pandemic and Similar Futures. 307**
Chantelle Richmond, Heather Castleden, and Chelsea Gabel
- 41 #thenewnormal and the Pathological: Rethinking Human–Virus Relations During the COVID-19 Pandemic 313**
Beth Greenhough
- 42 Older People 319**
Malcolm P. Cutchin and Graham D. Rowles
- 43 Children and Families 325**
Louise Holt
- 44 Race, Ethnicity, and COVID-19: The Persistence of Black–White Disparities in the United States 331**
Dustin T. Duncan, Alicia T. Singham, Danielle C. Ompad, and Melody S. Goodman
- 45 Understanding the Importance of a Gendered Analysis of COVID-19 341**
Grace Adeniyi-Ogunyankin and Linda Peake
- 46 People with Disabilities. 349**
Edward Hall
- 47 Participatory Research By/For the Precariously Housed in a Time of COVID-19. 357**
Jeff Masuda, Audrey Kobayashi, and The Right to Remain Collective
- 48 Mental-Ill Health and Anxious Pandemic Geographies 365**
Louise Boyle, Hester Parr, and Chris Philo
- 49 COVID-19 and Health Professionals: Recommitting to a Global Health Agenda 373**
Margaret Walton-Roberts
- 50 Labour Geography, Racial Capitalism, and the Pandemic Portal 381**
Ben Rogaly and Hannah Schling
- 51 Geographies of (Domestic) Alcohol Consumption 387**
Robert Wilton

Part V Methods and Practice

- 52 Public Geographies in a Post-COVID-19 World** 395
Bronwyn Parry
- 53 Textures of an Epidemic: On the Necessity of Qualitative Methods in Making Better Pandemic Futures** 401
Susan Craddock
- 54 Counting COVID: Quantitative Geographical Approaches to COVID-19** 409
Sara L. McLafferty, Aida Guhlincozzi, and Fikriyah Winata
- 55 GIS and Spatial Representations: Challenges and Missteps** 417
Joseph Oppong and Chetan Tiwari
- 56 New Forms of Data and New Forms of Opportunities to Monitor and Tackle a Pandemic** 423
Mark Green, Frances Darlington Pollock, and Francisco Rowe
- 57 Knowledge Translation and COVID-19** 431
Niamh Shortt
- 58 Examining Geographical Visualizations of COVID-19** 437
Leah Rosenkrantz and Nadine Schuurman
- Correction to: COVID-19 and Similar Futures: Pandemic Geographies** C1
