

<i>Isaac Harris</i> : The direct and inverse problem for sub-diffusion equations with a generalized impedance subregion	1
<i>Gimyong Hong, Hakho Hong</i> : Logarithmic stabilization of the Kirchhoff plate transmission system with locally distributed Kelvin-Voigt damping	21
<i>Xiangjing Liu, Sanyang Liu</i> : A smoothing Levenberg-Marquardt method for the complementarity problem over symmetric cone	49
<i>Alexander M. Kamachkin, Dmitriy K. Potapov, Victoria V. Yevstafyeva</i> : Continuous dependence on parameters and boundedness of solutions to a hysteresis system	65
<i>Jiří Krček</i> : BIE model of periodic diffraction problems in optics	81
<i>Miaochao Chen, Shengqi Lu, Qilin Liu</i> : Uniqueness of weak solutions to a Keller-Segel-Navier-Stokes model with a logistic source	93
<i>Yuanfei Li, Shengzhong Xiao</i> : Continuous dependence of 2D large scale primitive equations on the boundary conditions in oceanic dynamics	103
