

Contents

<i>Foreword</i>	9
<i>Oldřich Švajgl</i> Reforming of naphtha fractions from various sources and with different boiling point ranges	17
<i>Robert Holub, Oldřich Švajgl, Miloš Címr</i> Isomerization of C ₈ -naphthenes (the complex chemical equilibrium)	41
<i>Oldřich Švajgl, Robert Holub, Miloš Címr</i> Isomerization of C ₈ -naphthenes (experimental part)	63
<i>Josef Šuber, Oldřich Švajgl</i> Synthesis of alkylterc. alkylethers, their properties and utilization	83
<i>Oldřich Švajgl, Josef Šuber</i> Gasolines containing TEL without halogenated scavengers	101
<i>Bedřich Holle, Oldřich Švajgl</i> Gasoline oxidation stability	121
<i>Milan Řičánek, Zdeněk Hrzán, Alexandra Drahorádová, Eva Hillerová, Zdeněk Vít</i> The influence of platinum and iridium on the hydrodenitri- fication activity of the NiMoP/Al ₂ O ₃ catalyst	136
<i>Jiří Kolena, Pavel Morávek</i> Potential utilization of heavy waste fractions from the propylene hydroformylation process	147
<i>Vladimír Macek</i> Effect of oxo synthesis reaction conditions on yield and selectivity	159

<i>Roman Lenský</i>	179
The utilization of triethylbenzenes transalkylation for ethylbenzene production selectivity improving	
<i>Jaroslav Polák, Kamil Štěpánek</i>	195
The determination of trace amounts of hydroperoxides in dicyclopentadiene using the differential pulse polarography	
<i>Stanislav Bruna, Jiří Schöngut</i>	209
Linear model of petrochemical division and experience with program package PIMS	
<i>Bedřich Exner, Karla Exnerová, Josef Šuber, Oldřich Švajgl</i>	227
Emulgated diesel oil - low-emission fuel for diesel engines	
<i>Biographies of authors</i>	237
