| | Preface | xi |
| | Acknowledgments | xv |
| 1 | Social Foraging Theory: Definitions, Concepts, and Methods | 3 |
| | 1.1 What Is Social Foraging? | 3 |
| | 1.2 Concepts and Methods of Social Foraging Theory | 6 |
| | 1.3 Interactions Among Social Foragers | 15 |
| | 1.4 Concluding Remarks | 17 |
| | Math Boxes 1.1–1.3 | 19 |
| PART ONE: | Group Membership Games | |
| 2 | Two-Person Games: Competitive Solutions | 35 |
| | 2.1 Introduction | 35 |
| | 2.2 Achieving an Aggregation Economy | 36 |
| | 2.3 A Symmetric Group Membership Game | 40 |
| | 2.4 An Asymmetric Group Membership Game | 43 |
| | 2.5 Concluding Remarks | 48 |
| | Math Box 2.1 | 50 |
| 3 | Two-Person Games: Conditional Cooperation | 54 |
| | 3.1 Introduction | 54 |
| | 3.2 Food-Sharing with a Communal Cost | 56 |
| | 3.3 Food-Calling and Cooperation | 66 |
| | 3.4 Concluding Remarks | 73 |
| | Math Boxes 3.1–3.3 | 78 |
| 4 | Group Size in Aggregation Economies | 85 |
| | 4.1 Introduction | 85 |
| | 4.2 Which Group Size to Expect? | 87 |

| | | |
|--|---|------------|
| | 4.3 The Effect of Genetic Relatedness on Equilibrium Group Size | 90 |
| | 4.4 Integrating Entry Rules, Relatedness, and Aggressive Dominance | 96 |
| | 4.5 Risk-Sensitive Group Membership Games | 100 |
| | 4.6 Concluding Remarks | 109 |
| | Math Boxes 4.1–4.4 | 113 |
| | 5 Predicting Group Size in Dispersion Economies | 119 |
| | 5.1 Introduction | 119 |
| | 5.2 Introduction to Continuous Input Models | 121 |
| | 5.3 Changing the Assumptions of Continuous Input Models | 123 |
| | 5.4 Introduction to Interference Models | 137 |
| | 5.5 Changing the Assumptions of Interference Models | 140 |
| | 5.6 Concluding Remarks | 146 |
| | PART TWO: Producer-Scrounger Decisions | |
| | 6 An Introduction to Producer-Scrounger Games | 151 |
| | 6.1 Introduction | 151 |
| | 6.2 The Diversity of Kleptoparasitism | 152 |
| | 6.3 Kleptoparasitism: A Game-Theoretic Approach | 153 |
| | 6.4 A Symmetric Rate-Maximizing Producer-Scrounger Model | 155 |
| | 6.5 Empirical Tests of the Rate-Maximizing Producer-Scrounger Model | 164 |
| | 6.6 Concluding Remarks | 168 |
| | Math Box 6.1 | 170 |
| | 7 Producer-Scrounger Games in Stochastic Environments | 174 |
| | 7.1 Introduction | 174 |
| | 7.2 A Stochastic Producer-Scrounger Game | 174 |
| | 7.3 Analysis of the Stochastic Game | 180 |
| | 7.4 Numerical Evaluation | 184 |

| | | |
|--|---|------------|
| | 7.5 Experimental Evidence of Risk-Sensitive Producer-Scrounger Decisions | 194 |
| | 7.6 Concluding Remarks | 196 |
| | Math Boxes 7.1–7.2 | 199 |
| PART THREE: Decisions within Patches | | |
| 8 | Social Patch and Prey Models | 205 |
| | 8.1 Introduction | 205 |
| | 8.2 Models of Social Patch Exploitation | 206 |
| | 8.3 Tests of Social Patch Models | 220 |
| | 8.4 Social Prey Models | 222 |
| | 8.5 Concluding Remarks | 225 |
| PART FOUR: Models of Phenotypic Diversity | | |
| 9 | Quantifying Phenotypic Diversity | 229 |
| | 9.1 Composition of Foraging Groups | 229 |
| | 9.2 Quantifying Variability in Foraging Behavior | 232 |
| | 9.3 Phenotypic Diversity | 234 |
| | 9.4 Concluding Remarks | 246 |
| | Math Box 9.1 | 248 |
| 10 | Learning in Foraging Groups | 253 |
| | 10.1 Introduction | 253 |
| | 10.2 Some Functional Definitions of Learning | 253 |
| | 10.3 <i>Learning How</i> : Individual Learning Only | 255 |
| | 10.4 Models of Individual Learning Only | 257 |
| | 10.5 <i>Learning How</i> : Social Learning | 269 |
| | 10.6 Models with Both Individual and Social <i>Learning How</i> | 271 |
| | 10.7 <i>Learning About</i> : Individual Learning | 277 |
| | 10.8 <i>Learning About</i> : Social Learning | 277 |
| | 10.9 Concluding Remarks | 280 |
| | Math Boxes 10.1–10.3 | 282 |
| 11 | Efficiency of Diversity: The Skill Pool | 287 |
| | 11.1 Background | 288 |
| | 11.2 A Skill Pool: Static Model | 289 |

| | | |
|---------------------------|--|-----|
| | 11.3 A Skill Pool: Stochastic Dynamic Model | 302 |
| | 11.4 Conclusions | 315 |
| | Math Box 11.1 | 322 |
| | | |
| PART FIVE: Final Thoughts | | |
| | 12 Synthesis and Conclusions | 325 |
| | 12.1 Introduction | 325 |
| | 12.2 Group Membership Models | 325 |
| | 12.3 Searching Decisions within Groups | 330 |
| | 12.4 Models for Decisions within Patches | 331 |
| | 12.5 Models of Phenotypic Diversity | 332 |
| | 12.6 Conclusions | 334 |
| | References | 335 |
| | Subject Index | 359 |
| | Species Index | 361 |
| | | |
| | 10.1 Introduction | 151 |
| | 10.2 Some Functional Definitions of Learning | 151 |
| | 10.3 Learning About Individual Learning Only | 151 |
| | 10.4 Learning About Individual Learning Only | 151 |
| | 10.5 Learning About Social Learning | 164 |
| | 10.6 Models with Both Individual and Social Learning | 168 |
| | 10.7 Learning About Individual Learning | 170 |
| | 10.8 Learning About Social Learning | 174 |
| | 10.9 Concluding Remarks | 174 |
| | Math Boxes 10.1-10.3 | 174 |
| | 11.1 The Efficiency of Diversity: The Skill Pool | 177 |
| | 11.2 Background | 181 |
| | 11.3 A Skill Pool: Static Model | 187 |
