I INSTRUMENTAL METEOROLOGICAL MEASUREMENTS IN MORAVIA UP TO THE END OF THE EIGHTEENTH CENTURY	9
1 Introduction	11
2 The social and cultural situation in Moravia in the latter half of the 18th century	15
3 Instrumental meteorological measurements in Moravia before the end of the 18th century	23
3.1 Meteorological measurements of František Alois Mag at Telč in 1771-1775	23
3.1.1 Protocollum meteorologicum	23
3.1.2 Ambiguities about the oldest meteorological observations at Telč	27
3.1.3 František Alois Mag of Magg	32
3.1.4 Mag's meteorological observations at Telč in 1771-1775	34
3.1.4.1 Characteristic of Mag's meteorological observations	34
3.1.4.1.1 Columns of the record	34
3.1.4.1.2 Record of observation	39
3.1.4.1.3 The sequence of records	41
3.1.4.2 Mag's motivation for meteorological observations	41
3.1.4.3 Evaluation of meteorological observations at Telč in 1771-1775	42
3.1.4.3.1 Missing observations	42
3.1.4.3.2 Air pressure	43
3.1.4.3.3 Air temperature	45
3.1.4.3.4 Cloudiness	47
3.1.4.3.5 Precipitation	48
3.1.4.3.6 Wind	52
3.1.4.3.7 Meteorological phenomena	58
3.1.4.3.8 Central European context of Mag's meteorological observations	59
3.1.5 Mag's meteorological observations after 1775	62
3.1.6 Summary	68
3.2 Meteorological measurements of Alois Ferdinand Kiesewetter	69
3.3 Meteorological measurements of Josef Gaar	71
3.4 Meteorological measurements of Felix Beck	77
3.5 Meteorological measurements of Ferdinand Knittelmayer	78
