Preface	vi
Acknowledgments	ix

Part I Foundations of Strength Training

1 Strength, Power, and Muscular Endurance in Sports	3
2 Neuromuscular Response to Strength Training	19
3 Energy Systems Training	37
4 Fatigue and Recovery	59
5 Sport Nutrition	73
6 Periodization as Planning and Programming of Sport Training	87
7 Laws and Principles of Strength Training for Sports	99

Part II Program Design

8 Manipulation of Training Variables	125
9 The Microcycle Short-Term Plan	157
10 The Annual Plan	175

Part III Periodization of Strength

11 Phase 1: Anatomical Adaptation	229
12 Phase 2: Hypertrophy	239
13 Phase 3: Maximum Strength	249
14 Phase 4: Conversion to Specific Strength	265
15 Phases 5, 6, and 7: Maintenance, Cessation, and Compensation	311
References	335
Index	349
About the Authors	357
