PREFACE		1
PART-I: ELECTRICAL & ELECTROMAGNETIC PROPERTIES OF TEXTILES		
Chapter 1	Methods for Evaluating and Predicting the Shielding Effectiveness of Hybrid textiles <i>Veronika Šafářová, Jiří Militký and Martin Truhlář</i>	5
Chapter 2	Electromagnetic Field Shielding Fabrics with Increased Comfort Properties <i>Veronika Šafářová and Jiří Militký</i>	13
Chapter 3	Modified Shielded Box Method for Testing Shielding Effectiveness of Textile Samples <i>Veronika Šafářová, Jiří Militký and Miroslava Maršálková</i>	23
Chapter 4	Prediction of Hybrid Woven Fabrics Shielding Effectiveness <i>Veronika Šafářová, Maroš Tunák and Jiří Militký</i>	33
PART-II: OPTICAL PROPERTIES OF TEXTILES		
Chapter 5	Background of Fiber Optics <i>Jaroslav Šesták and Jiří Militký</i>	45
Chapter 6	Review on Polymeric Optical Fibers <i>Juan Huang, Dana Křemenáková, Jiří Militký and Barbora Meryová</i>	55
Chapter 7	Characterization of Side Emitting Polymeric Optical Fibres Illumination Intensity <i>Dana Křemenáková, Jiří Militký, Barbora Meryová, Vít Lédl, Blanka Bůbelová and Radek Melich</i>	93
Chapter 8	Flex Fatigue of Side Emitting Polymeric Optical Fiber <i>Jiří Militký and Dana Křemenáková</i>	105
Chapter 9	Surface Modification of Polymer Optical Fibers for Enhanced Side Emission Behavior <i>Rajesh Mishra, Anuj Shukla, Dana Křemenáková and Jiří Militký</i>	115
Chapter 10	Photoilluminance of Different Woven Structures by Treatment with Phosphorescent Pigment <i>Hafsa Jamshaid, Mohanapriya Venkataraman and Rajesh Mishra</i>	123

PART-III: FUNCTIONAL PROPERTIES OF TEXTILE NANOCOMPOSITES

- Chapter 11 Influence of Filling Wet Milled Fly Ash on Functional Properties of Glass Fabric / Epoxy Composites 135
Vijay Baheti, R. Mishra, M Maršálková, Jiří Militký and B K Behera
- Chapter 12 Effect of TiO₂ Nanoparticles on Basalt/Polysiloxane Composites: Mechanical and Thermal Characterization 149
Rajesh Mishra, Richa Tiwari, Miroslava Maršálková, B.K.Behera and Jiří Militký
- Chapter 13 Nanoparticles in the Textile Industry 159
Jiří Militký, Blanka Tomková and Dana Křemenáková

PART-IV: THERMAL PROPERTIES OF TEXTILES

- Chapter 14 Structure-Property Relationship of Goose Down for Thermal Insulation 179
Arun P. Aneja, Jiří Militký, Laurence Schacher, Dominique Adolphe and Karl Jacob
- Chapter 15 Heat Generating Glass Fabric Coated with Conductive Polymer 193
Rehan Abbasi and Jiří Militký
- Chapter 16 Effective Thermal Conductivity of Textiles Containing Hollow Fibers 207
Jiří Militký, Guocheng Zhu and Dana Křemenáková
- Chapter 17 Aerogels: Novel Materials for Insulative Textiles 217
Mohanapriya Venkataraman, Rajesh Mishra, Hafsa Jamshaid and Jiří Militký
- Chapter 18 Aerogel Based Insulation Materials: Characterization of Thermal, Electrical and Electromagnetic Behavior 265
Mohanapriya Venkataraman, Rajesh Mishra, Hafsa Jamshaid, Jiří Militký and Dana Křemenáková
- Chapter 19 Thermal Comfort of Cotton Denim Fabric in Wet State 293
Jiří Militký, Muhammad Mushtaq Mangat & Luboš Hes

PART-V: SPECIAL PROPERTIES AND UNDERLYING PHYSICS

- Chapter 20 Linear Transport Constitutive Relations 309
Jiří J. Mareš, Pavel Hubík, Jaroslav Šesták
- Chapter 21 Quantum Diffusion and Periodic Reactions 319
Jiří J. Mareš, Pavel Hubík, Jaroslav Šesták
