Viscera at a Glance	2		
Arrangement by Function	2		
Arrangement by Region	2		
Cardiovascular System (H. Fritsch)	5		
Overview	6		
Circulatory System and Lymphatic Vessels	6		
Fetal Circulation (A)	8		
Circulatory Adjustments at Birth (B) ..	8		
Heart	10		
External Features	10		
Chambers of the Heart	14		
Cardiac Skeleton	18		
Layers of the Heart Wall	18		
Layers of the Heart Wall, Histology, and Ultrastructure	20		
Heart Valves	22		
Vasculature of the Heart	24		
Conducting System of the Heart ...	26		
Innervation	28		
Pericardium	30		
Position of the Heart and Cardiac Borders	32		
Radiographic Anatomy	34		
Auscultation	34		
Cross-Sectional Anatomy	36		
Cross-Sectional Echocardiography ..	40		
Functions of the Heart	42		
Arterial System	44		
Aorta	44		
Arteries of the Head and Neck	46		
Common Carotid Artery	46		
External Carotid Artery	46		
Maxillary Artery	48		
Internal Carotid Artery	50		
Subclavian Artery	52		
Arteries of the Shoulder and Upper Limb	54		
Axillary Artery	54		
Brachial Artery	54		
Radial Artery	56		
Ulnar Artery	56		
Arteries of the Pelvis and Lower Limb	58		
Internal Iliac Artery	58		
External Iliac Artery	60		
Femoral Artery	60		
Popliteal Artery	62		
Arteries of the Leg and Foot	62		
Vascular Arches of the Feet	64		
Venous System	66		
Caval System	66		
Azygos Vein System	66		
Tributaries of the Superior Vena Cava	68		
Brachiocephalic Veins	68		
Jugular Veins	68		
Dural Venous Sinuses	70		
Veins of the Upper Limb	72		
Tributaries of the Inferior Vena Cava ..	74		
Iliac Veins	74		
Veins of the Lower Limb	76		
Lymphatic System	78		
Lymphatic Vessels	78		
Regional Lymph Nodes of the Head, Neck, and Arm	80		
Regional Lymph Nodes of the Thorax and Abdomen	82		
Regional Lymph Nodes of the Pelvis and Lower Limb	84		
Structure and Function of Blood and Lymphatic Vessels	86		
Vessel Wall	86		
Special Forms of Arteries	86		
Regional Variation in Vessel Wall Structure—Arterial Vessels	88		
Regional Variation in Vessel Wall Structure—Venous Vessels	90		

Respiratory System (H. Fritsch)	93
Overview	94
Anatomical Division of the Respiratory System	94
Clinical Division of the Respiratory System	94
Nose	96
External Nose	96
Nasal Cavity	98
Paranasal Sinuses	102
Openings of Paranasal Sinuses and Nasal Meatuses	104
Posterior Nasal Apertures	106
Nasopharynx	106
Larynx	108
Laryngeal Skeleton	108
Structures Connecting the Laryngeal Cartilages	110
Laryngeal Muscles	112
Laryngeal Cavity	114
Glottis	116
Trachea	118
Trachea and Extrapulmonary Main Bronchi	118
Topography of the Trachea and Larynx	120
Lung	122
Surfaces of the Lung	122
Divisions of the Bronchi and Bronchopulmonary Segments	124
Microscopic Anatomy	126
Vascular System and Innervation ..	128
Pleura	130
Cross-Sectional Anatomy	132
Mechanics of Breathing	134
Mediastinum	136
Right View of the Mediastinum	136
Left View of the Mediastinum	138
Alimentary System (H. Fritsch)	141
Overview	142
General Structure and Functions ...	142
Oral Cavity	144
General Structure	144
Palate	146
Tongue	148
Muscles of the Tongue	150
Inferior Surface of the Tongue (A) ..	152
Floor of the Mouth	152
Salivary Glands	154
Microscopic Anatomy of the Salivary Glands	156
Teeth	158
Parts of the Tooth and the Periodontium	160
Deciduous Teeth	162
Eruption of the Primary and Permanent Dentition	162
Development of the Teeth	164
Position of the Teeth in the Dental Arcades	166
Pharynx	168
Organization and General Structure	168
The Act of Swallowing	170
Topographical Anatomy I	172
Sectional Anatomy of the Head and Neck	172
Esophagus	176
General Organization and Microscopic Anatomy	176
Topographical Anatomy of the Esophagus and the Posterior Mediastinum	178
Vessels, Nerves, and Lymphatic Drainage	180
Abdominal Cavity	182
General Overview	182
Topography of the Opened Abdominal Cavity	184
Relations of the Parietal Peritoneum	188

Stomach	190	Liver	212
Gross Anatomy	190	Gross Anatomy	212
Microscopic Anatomy of the Stomach	192	Liver Segments	214
Vessels, Nerves, and Lymphatic Drainage	194	Microscopic Anatomy	214
Small Intestine	196	Portal Vein System (C)	216
Gross Anatomy	196	Bile Ducts and Gallbladder	218
Structure of the Small Intestinal Wall	198	Gallbladder	218
Vessels, Nerves, and Lymphatic Drainage	200	Pancreas	220
Large Intestine	202	Gross and Microscopic Anatomy ...	220
Segments of the Large Intestine: Overview	202	Topography of the Omental Bursa and Pancreas	222
Cecum and Vermiform Appendix ..	202	Topographical Anatomy II	224
Colon Segments	206	Sectional Anatomy of the Upper Abdomen	224
Rectum and Anal Canal	208	Sectional Anatomy of the Upper and Lower Abdomen	226
Urinary System (H. Fritsch)	229		
Overview	230	Excretory Organs	240
Organization and Position of the Urinary Organs	230	Renal Pelvis and Ureter	240
Kidney	232	Urinary Bladder	242
Gross Anatomy	232	Female Urethra	244
Microscopic Anatomy	234	Topography of the Excretory Organs	244
Topography of the Kidneys	238		
Male Genital System (H. Fritsch)	247		
Overview	248	Male External Genitalia	260
Male Reproductive Organs	248	Penis	260
Testis and Epididymis	250	Male Urethra	262
Gross Anatomy	250	Topographical Anatomy	264
Microscopic Anatomy	252	Sectional Anatomy	264
Seminal Ducts and Accessory Sex Glands	256		
Ductus Deferens (Vas Deferens)	256		
Seminal Vesicles	258		
Prostate	258		

Female Genital System (H. Fritsch)	267
Overview	268
Female Reproductive Organs	268
Ovary and Uterine Tubes	270
Gross Anatomy of the Ovary	270
Microscopic Anatomy of the Ovary	270
Follicles	272
Gross Anatomy of the Uterine Tube	274
Microscopic Anatomy of the Uterine Tube	274
Uterus	276
Gross Anatomy	276
Microscopic Anatomy	278
Vessels, Nerves, and Lymphatic Drainage	280
Support of the Uterus	280
Vagina and External Genitalia	282
Gross Anatomy	282
Topographical Anatomy	286
Sectional Anatomy	286
Comparative Anatomy of the Female and Male Pelves	288
Soft Tissue Closure of the Pelvis	288
Pregnancy and Human Development	293
Gametes	294
Fertilization	296
Capacitation and Acrosome Reaction	296
Formation of the Zygote	296
Early Development	298
Pregnancy	300
Placenta	302
Birth (Parturition)	304
Dilation Stage	306
Expulsion Stage	308
Overview	310
Prenatal Period	310
Stages in Prenatal Development ...	312
Pre-embryonic Period	312
Embryonic Period	312
Fetal Period (Overview)	314
Fetal Period (Monthly Stages)	316
Organ Development	318
Body Cavities	318
Heart	318
Vessel Development	322
Respiratory System	324
Gastrointestinal System, Foregut ...	326
Gastrointestinal System, Midgut and Hindgut	330
Development of the Urinary System	332
Development of the Genital System	334
The Neonate	338
Postnatal Periods	340

Endocrine System (W. Kuehnel)	343		
Glands	344	Adrenal Glands	362
Overview	344	Gross Anatomy	362
Light Microscopic Classification of		Microscopic Anatomy of the	
Exocrine Secretory Units	346	Adrenal Cortex	364
General Principles of Endocrine		Microscopic Anatomy of the	
Gland Function	348	Adrenal Medulla	366
Hypothalamic–Pituitary Axis	350	Thyroid Gland	368
Gross Anatomy	350	Gross Anatomy	368
Microscopic Structure of the		Microscopic Anatomy	370
Pituitary Gland	352	Parathyroid Glands	372
Hypothalamus–Pituitary Connec-		Pancreatic Islets	374
tions	354	Microscopic Anatomy	374
Efferent Connections of the		Diffuse Endocrine System	376
Hypothalamus	354	Testicular Endocrine Functions	376
Hypothalamic–Posterior Pituitary		Ovarian Endocrine Functions	378
Axis (A)	356	Ovarian Cycle	378
Hypothalamic–Anterior Pituitary		Endocrine Functions of the	
Axis (B)	356	Placenta	380
Pineal Gland	360	Cardiac Hormones—Atrial Natri-	
Gross Anatomy	360	uretic Peptides	382
Microscopic Anatomy	360	Diffuse Endocrine Cells in Various	
		Organs	384
Blood and Lymphatic Systems (W. Kuehnel)	391		
Blood	392	Microanatomy of the Thymus	408
Components of Blood	392	Lymph Nodes	410
Hematopoiesis	396	Spleen	412
Immune System	400	Microscopic Anatomy of the	
Cells of the Immune System	402	Spleen	414
Lymphatic Organs	404	The Tonsils	416
Overview	404	Mucosa-Associated Lymphoid	
Thymus	406	Tissue (MALT)	418

The Integument (W. Kuehnel)	421
Skin	422
General Structure and Functions ...	422
Skin Color	422
Surface of the Skin	424
The Layers of the Skin	426
Epidermis	426
Dermis (Corium)	428
Subcutaneous Tissue (Subcutis)	428
Appendages of the Skin	430
Skin Glands	430
Hair	432
Nails	434
Skin as a Sensory Organ—Organs of Somatovisceral Sensation	434
Breast and Mammary Glands	436
Gross Anatomy	436
Microscopic Structure and Function of the Female Breast	438
References	440
Illustration Credits	446
Index	447
