

# Contents

## Part I Introduction

- 1 Water and its Global Meaning** ..... 3  
Andreas Haarstrick and Müfit Bahadır

## Part II Hydrology and Climate Change Impacts

- 2 Climate Change Impacts on Water Resources** ..... 17  
Veysel Yildiz, Murat Ali Hatipoglu, and S. Yurdagül Kumcu
- 3 Drought Management** ..... 27  
I. Ethem Karadirek
- 4 Flood Management Under Changing Climate** ..... 35  
S. Yurdagül Kumcu
- 5 Water Resources Allocation and Priorities** ..... 41  
Burcu Tezcan, Yakup Karaaslan, and Mehmet Emin Aydin

## Part III Urban Water Supply

- 6 Water Losses Management in Urban Water Distribution Systems** ..... 53  
I. Ethem Karadirek and Mehmet Emin Aydin
- 7 Management Strategies for Minimising DBPs Formation in Drinking Water Systems** ..... 67  
Nuray Ates, Gokhan Civelekoglu,  
and Sehnaz Sule Kaplan-Bekaroglu
- 8 Water Sensitive Planning and Design** ..... 83  
Hoda Soussa

## Part IV Wastewater Management (Technologies)

- 9 Sewerage Systems and Wastewater Treatment** ..... 99  
Eyup Debik, Kubra Ulucan-Altuntas,  
and Neslihan Manav-Demir
- 10 Near-Nature Wastewater Treatment Methods** ..... 115  
Elina Domscheit

<b>11</b>	<b>An Overview of Process and Technologies for Industrial Wastewater and Landfill Leachate Treatment . . . . .</b>	<b>129</b>
	Marcelo A. Nolasco, Gabriela Ribeiro L. da Silva, and Vitor Cano	
<b>12</b>	<b>Modelling and Control of Wastewater Treatment Processes: An Overview and Recent Trends . . . . .</b>	<b>143</b>
	Victor Alcaraz-Gonzalez	
<b>Part V Wastewater Management (Pollutants)</b>		
<b>13</b>	<b>Fingerprint of Persistent Organic Pollutants (POPs) in the Environment: Ecological Assessment and Human Health Effects . . . . .</b>	<b>153</b>
	Fatma Beduk, Senar Aydin, Arzu Ulvi, and Mehmet Emin Aydin	
<b>14</b>	<b>Wastewater-Based Epidemiology (WBE) Studies for Monitoring of Covid-19 Spread . . . . .</b>	<b>163</b>
	Bilge Alpaslan Kocamemi, Halil Kurt, Esra Erken, and Ahmet Mete Saatçi	
<b>15</b>	<b>Pharmaceuticals, Benzotriazoles and Polyfluoroalkyl Substances: Impacts and Potential Reduction Measures . . . . .</b>	<b>179</b>
	Elke Fries, Manuela Helmecke, and Christoph Schulte	
<b>16</b>	<b>Wastewater-Based Epidemiology: Overview of Covid-19 Tracking in Brazil . . . . .</b>	<b>197</b>
	Juliana Calabria de Araújo, Andreas Haarstrick, Sávia Gavazza, Lourdinha Florêncio, and Elvis Carissimi	
<b>17</b>	<b>Investigation of Microplastics in Water and Wastewater: A Review . . . . .</b>	<b>207</b>
	Souad El Hajjaji, Abdelmalek Dahchour, Jamal Mabrouki, Youssef Assou, Nasser Alanssari, Latifa Elfarissi, and Hanane Benqlilou	
<b>18</b>	<b>Consequences of Heavy Metals in Water and Wastewater for the Environment and Human Health . . . . .</b>	<b>221</b>
	Fatma Beduk, Senar Aydin, Mehmet Emin Aydin, and Müfit Bahadır	
<b>Part VI Agricultural Water Management</b>		
<b>19</b>	<b>Reuse of Water in Agriculture (Treated Wastewater, Drainage Water) . . . . .</b>	<b>231</b>
	Kemal Güneş, Mehmet Ali Çullu, Mehmet Şimşek, Bülent Topkaya, Mustafa Hakkı Aydoğdu, Mehmet Beşiktaş, and Mehtap Dursun Çelebi	

**20 Irrigation Management by Using Digital Technologies . . . . . 247**  
 Eyüp Selim Köksal, Emre Tunca, and Sakine Çetin Taner

**21 Fruit Production in Brazil’s Desert and Sustainability Aspects of Irrigated Family Farming Along the Lower-Middle Sao Francisco River: A Case Study . . . . . 269**  
 Heinrich Hagel, Daniela Gomez Rincon, and Reiner Doluschitz

1989. Bahadır studied chemistry at the Free University Berlin and Bonn University in Germany, received his Ph.D. in 1975 from Bonn University and his Assoc. Prof. 1983 from Munich Technical University. He became Full Professor of Environmental and Sustainable Chemistry at the Technische Universität Braunschweig in 1989. Since 1997, he is an honorary doctor and visiting professor at the Selçuk University Konya in Turkey. His research fields cover environmental chemistry and analysis, environmental pollution through industrial processes and products, pesticide chemistry and metabolism in soil and water, ecotoxicology, sustainable chemistry, renewable feed stocks, and biodiesel and bio-lubricants. During the last 20 years, his research focused on R&D of sustainable water and wastewater management in developing countries. He retired in 2016.

Andreas Hoorstrick has studied Chemistry at the Technische Universität Braunschweig (1983–1989) and received his doctorate in 1992 in the field of biotechnological up- and downstream processes of biopolymers. Since 2006, he is Professor for Bioprocess Engineering at the TU Braunschweig. His teaching and research cover modelling biological and chemical processes in heterogeneous systems, development of models predicting pollutant reduction in and emission behaviour of landfills, growth kinetics at low substrate concentrations under changing environmental conditions, Advanced Oxidation Processes (AOP), and groundwater management. Since 2012, he is the Managing Director of the DAAD-excell-Swinton Project dealing with sustainable water management in developing countries.
