Preface .....	xi
Acknowledgments .....	xii
<b>1. Rotary Drilling for Oil and Natural Gas .....</b>	<b>1</b>
Introduction .....	1
The Process of Rotary Drilling.....	1
Rotary Drilling Rigs.....	4
Rig Selection .....	9
Rotary Drilling Systems.....	10
Mud System Evaluation .....	15
Rotary System .....	22
Well Control System.....	25
Data Acquisition and Monitoring System.....	27
Special Systems for Offshore Drilling.....	28
Supplementary Problems .....	29
Nomenclature .....	36
<b>2. Drilling Fluids .....</b>	<b>37</b>
Characteristics of a Drilling Fluid .....	37
Drilling-Fluid Selection.....	41
Classification of Drilling Fluids .....	44
Water-Based Drilling-Mud Contaminants.....	47
Drilling-Mud Properties, Field Tests, and Control.....	49
Alkalinity ( $M_f, P_f, P_m, M_m, P_1, P_2$ ).....	60
Mud Rheology .....	64
Drilling-Mud Additives .....	76
Supplementary Problems .....	78
Nomenclature .....	82
<b>3. Fluid Flow and Associated Pressures in the Rotary Rig</b>	
<b>Circulating System.....</b>	<b>85</b>
Introduction .....	85
Mechanical Energy and Pressure Balance .....	90
Pressure Drop across the Bit Nozzles (Jets).....	92
Friction Pressure Losses in the Rotary Rig Circulating System.....	94
Friction Pressure Losses in Pipes and Annuli—Laminar Flow.....	97
Friction Pressure Losses in Pipes and Annuli—Turbulent Flow.....	116
Equivalent Newtonian Viscosity .....	118
Turbulent Pipe Flow of Non-Newtonian Fluids.....	119
Turbulent Annular Flow of Non-Newtonian Fluids.....	121
Annular Friction Pressure Losses Due to Pipe Movement .....	125

Supplementary Problems .....	130
Nomenclature .....	138
References .....	139
<b>4. Drill Bit Hydraulics .....</b>	<b>141</b>
Introduction .....	141
Pump Pressure Requirement in Rotary Drilling .....	142
Hydraulic Power Requirement .....	143
Flow Exponent ( $\alpha$ ) .....	144
Maximum Drill Bit Hydraulic Horsepower Criterion .....	145
Maximum Jet Impact Force Criterion .....	152
Supplementary Problems .....	156
Nomenclature .....	169
References .....	170
<b>5. Transport of Drilled Cuttings .....</b>	<b>171</b>
Introduction .....	171
Factors that Affect the Transport of Drilled Cuttings .....	171
Cuttings Transport in Vertical Well Drilling .....	179
Cuttings Transport in Directional Well Drilling .....	182
Empirical Correlations for Cuttings Transport in High-Angle Wells ( $\theta > 50^\circ$ ) .....	185
Supplementary Problems .....	188
Nomenclature .....	189
References .....	189
<b>6. Prevention and Control Mechanics of Well Blowouts .....</b>	<b>191</b>
Introduction .....	191
Kick Causes .....	191
Kick Detection .....	195
Kick Prevention .....	196
Fundamentals of Well Control .....	196
Well Control System .....	199
Principles of Well Control .....	206
Commonly Used Well Control Methods .....	216
Nonconventional Kick Situations .....	225
Supplementary Problems .....	230
Nomenclature .....	234
References .....	235
<b>7. Directional and Horizontal Well Drilling .....</b>	<b>237</b>
Directional Well Drilling .....	237
Horizontal Well Drilling .....	254
Tortuosity .....	265
Supplementary Problems .....	271
Nomenclature .....	274
References .....	275

<b>8. Drill Bit Mechanics .....</b>	<b>277</b>
Introduction .....	277
Bit Selection.....	277
Types of Drill Bits.....	279
Classification of Roller Cone Drill Bits.....	281
Drill Bit Operating Parameters.....	282
Grading of Dull Drill Bits .....	283
Classification of Drag Drill Bits .....	284
Rock Mechanics.....	289
Performance Mechanics of Drag Drill Bits.....	305
Supplementary Problems .....	315
Nomenclature .....	316
References .....	317
<b>9. Drill String Design.....</b>	<b>319</b>
Definition and Components .....	319
Design Criteria.....	322
Buckling of the Drill String.....	333
Drill String Fatigue.....	334
Dril String Vibration.....	335
BHA Design for Directional Drilling .....	342
Deviation Tools .....	345
Supplementary Problems .....	351
Nomenclature .....	351
References .....	353
<b>10. Drilling Problems and Solutions .....</b>	<b>355</b>
Introduction .....	355
Pipe Sticking .....	355
Loss of Circulation.....	360
Hole Deviation .....	363
Drill Pipe Failures .....	364
Borehole Instability .....	365
Mud Contamination .....	369
Producing-Formation Damage.....	371
Hole Cleaning.....	373
Hydrogen Sulfide–Bearing Zones and Shallow Gas.....	376
Equipment- and Personnel-Related Problems.....	376
Supplementary Problems .....	377
Nomenclature .....	379
References .....	380
<b>11. Casing and Cementing Design.....</b>	<b>381</b>
Drilling the Pay Zone: Selecting the Interval and the Initial Design.....	381
Initial Completion Design.....	382
Casing Design .....	389

Cementing .....	422
Supplementary Problems .....	442
Nomenclature .....	445
References .....	447
<b>12. Well Planning in Drilling Engineering.....</b>	<b>451</b>
Introduction .....	451
Objectives.....	451
Information Needed for Effective Well Planning.....	452
Responsibilities of the Drilling Engineer .....	452
Considerations in Well Planning.....	452
The Drilling Program .....	454
Post-Well Analysis .....	455
Well Cost Estimation .....	456
Learning Curve .....	458
Cost Control in Well Drilling .....	459
Time Value of Money .....	459
Price Elasticity.....	461
Supplementary Problems .....	462
Nomenclature .....	463
References .....	464
<b>Index .....</b>	<b>465</b>
