Sarcoidosis

Number 96
March 2022

Preface

v

Guest Editors

vii

Introduction

x

List of abbreviations

xiv

1. Definition and history

1

Ulrich Costabel and Sonoko Nagai

2. Epidemiology: solving the jigsaw puzzle

8

*Yvette C. Cozier, Elizabeth V. Arkema, Juan V. Rodriguez, Jeffrey S. Berman
and Praveen Govender*

3. Aetiopathogenesis, molecular determinants and immunological features

25

Paolo Spagnolo and Johan Grunewald

4. Unravelling the genetic basis of sarcoidosis

41

Coline H.M. van Moorsel, Martin Petrek and Natalia V. Rivera

5. Principles of diagnosis

57

Rocco Trisolini, Paolo Spagnolo and Robert P. Baughman

6. Conventional and nuclear imaging techniques

75

Rémy L.M. Mostard and Ruchi Yadav

7. Pathological features and differential diagnosis

91

Giulio Rossi and Carol Farver

8. Serum and imaging biomarkers

107

Ingrid H.E. Korenromp, Lisa A. Maier and Jan C. Grutters

9. Pulmonary sarcoidosis

122

W. Ennis James and Francesco Bonella

10. Cardiac sarcoidosis

142

David H. Birnie and Vasileios Kouranos

11. Granulomatous and nongranulomatous neurological sarcoidosis

160

Jinny Tavee and Mareye Voortman

12. Cutaneous sarcoidosis	174
<i>Christina Murphy, Joaquim Marcoval, Juan Mañá and Misha Rosenbach</i>	
13. The calcium–kidney–bone axis	193
<i>Robert P. Baughman and Elyse E. Lower</i>	
14. Non-organ-specific manifestations	206
<i>Vivienne Kahlmann, Divya C. Patel, Lucian T. Marts and Marlies S. Wijsenbeek</i>	
15. Hepatic and splenic involvement	223
<i>Florence Jeny and Nabeel Hamzeh</i>	
16. Sarcoidosis-associated pulmonary hypertension	234
<i>Vikramjit Khangoora, Hilario Nunes and Oksana A. Shlobin</i>	
17. Rheumatological manifestations	256
<i>Peter Korsten and Nadera J. Sweiss</i>	
18. Ocular sarcoidosis	267
<i>Stéphane Giorgiutti, Yasmine Serrar, Thomas El-Jammal, Laurent Kodjikian and Pascal Sève</i>	
19. Paediatric sarcoidosis	285
<i>Nadia Nathan and Alice Hadchouel</i>	
20. The manifestations of rare organ sarcoidosis	295
<i>Marc A. Judson, Jean Pastre and Dominique Israël-Biet</i>	
21. When to treat sarcoidosis	316
<i>Daniel A. Culver and Athol U. Wells</i>	
22. Treating sarcoidosis and potential new drugs	328
<i>Canay Caliskan and Antje Prasse</i>	
23. Quality-of-life assessment	337
<i>Timothy Tully, Marc A. Judson, Amit Suresh Patel and Surinder S. Biring</i>
