Introduction: Charles S. Peirce and the Philosophy of Science <i>Edward C. Moore</i>	1 ✓

Part 1. Logic and Mathematics

1. Peirce on the Conditions of the Possibility of Science <i>C. F. Delaney</i>	17 ✓
2. Peirce's Realistic Approach to Mathematics: Or, Can One Be a Realist without Being a Platonist? <i>Claudine Engel-Tiercelin</i>	30 ✓
3. Peirce as Philosophical Topologist <i>R. Valentine Dusek</i>	49
4. Peirce and Propensities <i>James H. Fetzer</i>	60
5. Induction and the Evolution of Conceptual Spaces <i>Peter Gärdenfors</i>	72

6. Abduction, Justification, and Realism <i>Anthony J. Graybosch</i>	89
7. Peirce and the Logic of Logical Discovery <i>Leila Haaparanta</i>	105
8. Truth, Laudan, and Peirce: A View from the Trenches <i>Shelby D. Hunt</i>	119
9. Peirce and Statistics <i>Henry E. Kyburg, Jr.</i>	130
10. Peirce's View of the Vague and the Definite <i>Joseph Margolis</i>	139
11. The Test of Experiment: C. S. Peirce and E. S. Pearson <i>Deborah G. Mayo</i>	161
12. Pragmatism, Abduction, and Weak Verification <i>Jeremiah McCarthy</i>	175
13. Peirce's Theory of Statistical Explanation <i>Ilkka Niiniluoto</i>	186
14. Peirce on Problem Solving <i>Peter Robinson</i>	208

Part 2. The Physical Sciences

15. Peirce as Participant in the Bohr-Einstein Discussion <i>Peder Voetmann Christiansen</i>	223
16. From Peirce to Bohr: Theorematic Reasoning and Idealization in Physics <i>Eliseo Fernández</i>	233
17. The Role of Potentiality in Peirce's Tychism and in Contemporary Discussions in Quantum Mechanics and Microphysics <i>Demetra Sfendoni-Mentzou</i>	246
18. Aristotle and Peirce on Chance <i>Philip H. Hwang</i>	262

Part 3. The Life of the Mind

19. Peirce's Definitions of the Phaneron <i>André De Tienne</i>	279
20. An Application of Peirce's Valency of Relations to the Phenomenon of Psychological Dissociation <i>Martin Lemon</i>	289
21. Knowing One's Own Mind <i>Gerald E. Myers</i>	300
22. Peirce's Psychophysics: Then and Now <i>Peter J. Behrens</i>	309
23. Peirce and Self-Consciousness <i>Antoni Gomila</i>	319
24. The Relevance of Peirce for Psychology <i>Clyde Hendrick</i>	333
25. Peircean Benefits for Freudian Theory: The Role of Abduction in the Psychoanalytic Enterprise <i>Matthias Kettner</i>	350
26. The Valuation of the Interpretant <i>James Jakób Liszka</i>	368
27. The Riddle of Brute Experience: An Argument for a Revision of Psychoanalytic Theory Based on Peircean Phenomenology <i>Alfred S. Silver, M.D.</i>	382
28. Memory, Morphology, and Mathematics: Peirce and Contemporary Neurostudies <i>George W. Stickel</i>	402
