

TABLE OF CONTENTS

BUILDING STRUCTURES AND STRUCTURAL MECHANICS

Tran Dang-Bao, Navrátil Jaroslav

Negative Shear Lag Effect in Continuous Double T Beam by FEM 1

Tran Dang-Bao, Navrátil Jaroslav

Nonuniform Torsion Without Shear Deformation Effect Using FEM 8

Freiherrová Nela, Juračka David, Kawulok Marek, Čajka Radim, Krejsa Martin

Design of Membrane Structure as a Temporary Roofing System 15

Jaskot Anna, Major Maciej

Analysis of Forced Vibration Damping with the Use of Hyperplastic Materials 21

Juhászová Tereza, Malíková Lucie, Doubek Pavel, Miarka Petr, Seitl Stanislav

Fatigue Behaviour of a Short Crack in a Thin Protective Layer
Laser-cladded on a Steel Substrate 25

Kozáková Kamila, Klusák Jan

The Prediction of Fatigue Life of Notched Specimens 29

Králik Juraj, Králik Juraj, Jr.

Probabilistic Nonlinear Analysis of Steel Frame Safety Under Extreme Wind Impact 36

Lipowczan Martin, Šomodíková Martina, Lehký David

Fracture Tests of Multiple Specimen Sizes: Mechanical Fracture Parameters
of C30/37 Concrete by Inverse Analysis 44

Melcer Jozef

Concrete Slab Response on Moving Load 50

Fernandéz Germana, Miarka Petr, Seitl Stanislav

Influence of Thickness on the Values of Stress Intensity Factor in Compact Tension Specimen .. 54

Nadolski Vitali, Holický Milan, Sýkora Miroslav	
Comparison of Approaches to Reliability Verification of Existing Steel Railway Bridges	60
Palacz Przemysław, Major Izabela	
Assessment of the Possibility of Using the Tensegrity System in the Steel Tower Structure	68
Pešek Ondřej, Melcher Jindřich	
Some Aspects of Designing and Numerical Modelling of Glass Railing Exposed to Impact Load	73
Sýkora Miroslav, Marková Jana, Nadolski Vitali	
Application of Semi-probabilistic Methods to Verification of Series System	80
Vaňová Patrícia, Kvočák Vincent	
The Importance of Mesh Module in Fem Analysis of Push-out Tests	86
Vyhlídal Michal	
Effect of the Mechanical Fracture Parameters of Inclusion on Fracture Behaviour of Cement Composite	90
Zajac Zbyněk, Lang Rostislav, Němec Ivan	
Advantages of Tensile Structure Analysis During Construction Stages	96
