

CONTENTS

Abstract	11
Introduction	13
1. Feed Additives in Animal Nutrition	17
2. Industrial By-Products as Ingredients in Animal Nutrition	21
3. Nutritional Composition of Grape By-Products	23
3.1 Basic nutritional characteristics of grape pomace	23
3.2 Composition of the grape pomace fibre complex	25
3.3 Mineral composition of grape pomace	26
3.4 Basic nutritional characteristics of the grape stem.....	29
3.5 Composition of the grape stem fibre complex.....	30
3.6 Grape stem mineral composition.....	31
3.7 Composition of fatty acids of grape by-products.....	32
4. Specific Compounds of Grape By-Products	39
4.1 Polyphenols.....	39
4.2 Bioavailability and digestibility of polyphenols	43
4.3 Effect of polyphenols on the digestive tract of animals	45
4.4 Antioxidant activity of polyphenols	46
5. The Effect of Grape By-Products on Nutrients Digestibility and Biochemical Indicators in Ruminants	55
6. The Effect of Grape By-Products on Wether Blood Cell Count Parameters	65

7. The Effect of Grape By-Products on the Nutritional Value of Cow Colostrum	75
8. The Effect of Grape By-Products on the Blood of Sows and Their Newborn Offspring	89
9. The Effect of Grape By-Products on Nutrients Digestibility and Biochemical Indicators in Horses	99
10. The Effect of Grape By-Products on Geese Fattening: Performance and Fatty Acid Composition	113
11. The Effect of Grape By-Products on Dog Blood Parameters..	121
12. Conservation of Grape By-Products.....	125
Resume in Slovak	135
