Preface	8
Acknowledgments	9
Funding	10
Summary	11
Introduction	12
Helminth collection, fixation and study techniques	14
General methods	14
Digenea	15
Monogenea	16
Cestoda	17
Nematoda	18
Acanthocephala	19
Notes on use of the atlas	20
List of localities and hosts studied (Table 1)	22
Class Digenea (adults)	30
Key for identification of adults	31
Descriptions	32
Doubtful records	46
Class Digenea (metacercariae)	47
Key for identification of metacercariae	49
Descriptions	51
Doubtful records	83
Class Monogenea	85
Key for identification	87
Descriptions	88
Class Cestoda	97
Key for identification	99
Descriptions	100
Class Nematoda (adults)	107
Key for identification of adults	109
Descriptions	110
Class Nematoda (larvae)	119
Key for identification of larvae	121
Descriptions	123
Doubtful records	136
Acanthocephala	139
Key for identification	141
Descriptions	142
Host-parasite list	149
References	156
Index of scientific names of helminths	164
