

## **PAPERS**

- 5 **Curvilinear element of the discontinuous Galerkin method designed to capture the labyrinth seal geometry exactly**  
Bublík O., Pecka A., Vimmr J.
- 23 **On fatigue life predictions for notched members by the nominal stress-based and the local strain-based methods**  
Duran J. A. R.
- 35 **Updated Lagrangian Taylor-SPH method for elastic dynamic problems**  
Karim Serroukh H., Mabssout M.
- 51 **Numerical modal analysis of DTU 10-MW reference wind turbine blade using the modified Myklestad's method**  
Pereira L. M., Alves M. T. S.
- 65 **Simple qualitative dynein model in Nose-Hoover framework**  
Rosenberg J., Krejčová M.
