Preface . . . . .	VII
Acknowledgements . . . . .	IX
Abbreviations . . . . .	X
<b>1. Introduction . . . . .</b>	<b>1</b>
1.1. The Tear Film . . . . .	1
1.1.1. The Mucin Layer . . . . .	2
1.1.2. The Aqueous Layer . . . . .	2
1.1.3. The Lipid Layer . . . . .	6
1.2. The Conjunctival Epithelium . . . . .	6
1.2.1. Surface Structure of Conjunctiva . . . . .	8
1.2.2. Light and Transmission Electron Microscopy of Conjunctiva . . . . .	9
1.2.3. Functions of the Conjunctival Epithelium . . . . .	10
<b>2. The Question . . . . .</b>	<b>12</b>
<b>3. Materials and Methods . . . . .</b>	<b>14</b>
3.1. Materials . . . . .	14
3.1.1. Chemicals . . . . .	14
3.1.2. Solutions . . . . .	15
3.2. Methods . . . . .	16
3.2.1. Transmission Electron Microscopy . . . . .	16
3.2.2. Scanning Electron Microscopy . . . . .	17
3.2.3. Carbonic Anhydrase Reaction . . . . .	17
3.2.4. Peroxidase Reaction . . . . .	17
3.3. Animal Conjunctiva . . . . .	18
3.3.1. Albino Rabbits . . . . .	18
3.3.2. Cynomolgus Monkeys . . . . .	20
3.4. Human Conjunctiva . . . . .	22
3.4.1. Healthy Conjunctival Tissue . . . . .	22
3.4.2. Pathologically Altered Conjunctival Tissue . . . . .	22
<b>4. Results . . . . .</b>	<b>28</b>
4.1. Animal Conjunctiva . . . . .	28
4.1.1. Ultrastructure of Conjunctival Epithelium in Albino Rabbits and Cynomolgus Monkeys . . . . .	28

4.1.2. Resorption Processes in Rabbit and Monkey Conjunctival Epithelium . . . . .	39
4.1.3. Effect of an Antiglaucomatous Agent (Pilocarpine) on the Conjunctival Ultrastructure of Cynomolgus Monkeys . . . . .	42
4.1.4. Corneal Reepithelialization at the Rabbit Limbus: Ultrastructure and His- tochemistry. . . . .	44
4.2. Human Conjunctiva . . . . .	50
4.2.1. Ultrastructure of Healthy Conjunctival Epithelium: Age-Related and Regional Differences . . . . .	50
4.2.2. Ultrastructure of Pathological Conjunctival Tissue . . . . .	65
5. Discussion . . . . .	72
5.1. Morphology and Function of Rabbit and Monkey Conjunctival Epithelium . . . .	72
5.1.1. Secretion of Mucoïd Substances . . . . .	72
5.1.2. Defense, Regulation, Self-Ablution . . . . .	74
5.1.3. Resorption . . . . .	74
5.2. Age-Related Morphological Changes in Human Conjunctiva. . . . .	78
5.3. Effect of Pathological Processes on Cell Distribution in Human Conjunctiva . . .	82
5.3.1. Conjunctival Biopsy or Impression Cytology? . . . . .	82
5.3.2. Dry Eye (e. g. Sjögren's Syndrome). . . . .	82
5.3.3. Ultrastructure of the Conjunctival Epithelium after Lime Burn . . . . .	84
5.3.4. Effect of Antiglaucomatous Drugs on the Ultrastructure of the Conjunctival Epithelium . . . . .	85
6. Conclusion . . . . .	87
7. References . . . . .	89
Subject Index. . . . .	100
