SECTION 1 Capillaroscopy: General Management

CHAPTER 1

Capillaroscopy in Rheumatic Diseases From the XVIII to the XXI Century.....	3
---	---

■ Maurizio Cutolo, MD

CHAPTER 2

The Microcirculation and Rheumatic Diseases.....	7
--	---

■ Silvia Bellando Randone, MD; Serena Guiducci, MD, PhD; Marco Matucci Cerinic, MD

1 The anatomy of the microcirculation.....	7
2 The microcirculation in rheumatic diseases.....	8
2.1 Systemic sclerosis.....	8
2.2 Psoriasis.....	10
2.3 Psoriatic arthritis.....	11
2.4 Rheumatoid arthritis.....	11
2.5 Systemic lupus erythematosus.....	12
2.6 Antiphospholipid syndrome.....	13
3 Conclusions.....	14

CHAPTER 3

Techniques for Evaluating the Microcirculation.....	17
---	----

■ Bernard Imbert, MD; Patrick H. Carpentier, MD

1 Introduction.....	17
2 Clinimetric methods.....	17
2.1 Thermometry and thermal imaging.....	17
2.2 Chromametry.....	18
2.3 Volumetry.....	18

3	Global microvascular measurements	18
3.1	Plethysmographic methods	18
3.2	Laser Doppler flowmetry and laser Doppler imaging	19
3.3	Transcutaneous oximetry	21
3.4	Quantitative capillaroscopy	22
4	Conclusions	23

CHAPTER 4

The Videocapillaroscopic Technique 25

■ Vanessa Smith, MD; Carmen Pizzorni, MD, PhD

1	Introduction	25
2	The videocapillaroscopic equipment	25
3	How to use the videocapillaroscope	27
3.1	Acclimatisation of patients	27
3.2	Area that is being examined	27
3.3	Transparency of the epidermis	27
3.4	How to obtain the capillaroscopic image	27
3.5	Preparation of images for interpretation	28
3.6	Printing of a report	31

CHAPTER 5

When and How to Perform Capillaroscopy 33

■ Vanessa Smith, MD; Maurizio Cutolo, MD

1	Investigation of patients with Raynaud's phenomenon	33
1.1	Primary versus secondary Raynaud's phenomenon	33
1.2	Transition from primary to secondary Raynaud's phenomenon	37
1.3	Early diagnosis of systemic sclerosis	38
2	Differential diagnosis between localised scleroderma/morphea and other fibrosing skin disorders (eosinophilic fasciitis) and systemic sclerosis	38
3	How to perform capillaroscopy	39
3.1	General	39
3.2	Scleroderma spectrum diseases	40
4	Conclusions	41

CHAPTER 6

How to Obtain Good Capillaroscopic Pictures 43

■ Patrizia Del Medico, MD

CHAPTER 7

Capillaroscopy in Healthy Subjects of Different Ages 49

■ John Allen, BEng, PhD

1	Introduction	49
2	Architecture in healthy adult subjects	49
2.1	Capillary density	50

2.2 Individual capillary loop dimensions	50
2.3 Subpapillary venular plexus	51
2.4 Minor morphological abnormalities	52
2.5 Blood flow characteristics	53
3 Age-related changes in capillary morphology	53
3.1 Capillaries in children	53
3.2 Capillaries in the elderly	53

CHAPTER 8

The Most Frequent Unusual Capillaroscopic Pictures in Healthy Subjects

■ Valeria Ricciari, MD

1 Introduction	55
2 Factors that can affect nailfold capillaroscopic findings	55
2.1 Age	55
2.2 Sex	56
2.3 Race	56
2.4 Constitutional type	56
2.5 Kind of employment	56
2.6 Habits	57
3 Conclusions	59

CHAPTER 9

The Most Important Capillaroscopic Parameters in Normal and Pathological Conditions

■ Rossella De Angelis, MD, PhD

1 Introduction	61
2 Skin transparency	62
3 Subpapillary venous plexus	62
4 Tortuosity	62
5 Enlarged loops	63
6 Microhaemorrhages and capillary thromboses	65
7 Capillary density	66
8 Neoangiogenesis	67
9 Architectural derangement	68

CHAPTER 10

Mistakes in Capillaroscopy

■ Walter Grassi, MD; Rossella De Angelis, MD, PhD

1 Introduction	71
2 Technical mistakes	71
3 Misinterpretations	73
4 Conclusions	75

CHAPTER 11**Reporting and Scoring Capillaroscopic Pictures** 77■ **Alberto Sulli, MD**

1	Introduction	77
2	Reporting the capillaroscopic pictures	77
3	Scoring the capillaroscopic pictures	80
3.1	Qualitative assessment	80
3.2	Semiquantitative assessment	80
3.3	Quantitative scoring	86

SECTION 2 Capillaroscopy: Rheumatic Diseases**CHAPTER 12****Raynaud's Phenomenon – A Clinical Marker** 91■ **Ariane L. Herrick, MBChB; Tonia Moore, BSc**

1	Introduction	91
2	Pathophysiology of Raynaud's phenomenon	92
3	History and examination	92
3.1	History	93
3.2	Examination	93
4	Investigations	95
5	Treatment	96
5.1	Establishing the diagnosis	96
5.2	General measures	97
5.3	Drug treatment	97
5.4	Surgery	98
5.5	Treatment of acute digital ischaemia	98
6	Case histories	99
7	Conclusions	100

CHAPTER 13**Capillaroscopy in Systemic Sclerosis** 103■ **Maurizio Cutolo, MD**

1	Introduction	103
2	Systemic sclerosis	103
2.1	Pathophysiology	103
2.2	General clinical symptoms	104
2.3	Clinical subsets of systemic sclerosis	104
2.4	Skin manifestations	104
3	The most important capillaroscopic changes in secondary Raynaud's phenomenon	105
3.1	Giant capillaries	105
3.2	Microhaemorrhages	107
3.3	Oedema	108
3.4	Loss of capillaries and/or avascular areas	108

3.5	Ramified/bushy capillaries	109
4	The scleroderma pattern	109
4.1	The 'early' pattern	111
4.2	The 'active' pattern	111
4.3	The 'late' pattern	111

CHAPTER 14

Capillaroscopy in Dermatomyositis

■ **Rossella De Angelis, MD, PhD**

1	The disease	115
2	The capillaroscopic pattern of the disease	115
3	Associated clinical and laboratory markers	117
4	Case histories	118

CHAPTER 15

Capillaroscopy in Mixed and Undifferentiated Connective Tissue Diseases

■ **Nemanja Damjanov, MD, PhD**

1	Mixed connective tissue disease	121
1.1	The disease	121
1.2	The capillaroscopic pattern of mixed connective tissue disease	122
1.3	Case report: a patient with mixed connective tissue disease	122
2	Undifferentiated connective tissue disease	124
2.1	The disease	124
2.2	The capillaroscopic pattern of undifferentiated connective tissue disease	125
2.3	Case report: a patient with undifferentiated connective tissue disease	127

CHAPTER 16

Capillaroscopy in Systemic Lupus Erythematosus

■ **Francesca Ingegnoli, MD**

1	The disease	131
2	The capillaroscopic pattern	131
3	A selection of representative images	133
4	Associated clinical and laboratory markers	135
5	Clinical cases	137
5.1	Case 1	137
5.2	Case 2	138

CHAPTER 17

Capillaroscopy in Antiphospholipid Syndrome

■ **Alberto Sulli, MD**

1	The disease	141
2	The capillaroscopic pattern in antiphospholipid syndrome	141

CHAPTER 18**Capillaroscopy in Juvenile Connective Tissue Diseases**..... 145

■ Ariane L. Herrick, MBChB; Eileen Baildam, MBChB

1	Juvenile connective tissue diseases	145
1.1	Dermatomyositis	146
1.2	Scleroderma-spectrum disorders	147
2	The capillaroscopic pattern	147
2.1	Description of abnormalities, and indications for capillaroscopy	147
2.2	Technical issues in children	148
2.3	Research studies	148
3	Representative pictures	149
4	Clinical and laboratory markers	150
5	Case histories	150
5.1	Case 1. Juvenile systemic sclerosis	150
5.2	Case 2. Juvenile dermatomyositis	150
5.3	Case 3. Juvenile systemic sclerosis, presenting initially as undifferentiated connective tissue disease	151
6	Conclusions	151

CHAPTER 19**Capillaroscopy in Psoriasis/Psoriatic Arthritis**..... 153

■ Patrizia Del Medico, MD

1	The disease	153
2	The capillaroscopic pattern of the disease	155
3	A selection of representative pictures	157
4	Clinical cases	158
4.1	Case 1	158
4.2	Case 2	159

CHAPTER 20**Capillaroscopy in Rheumatoid Arthritis and Sjögren's Syndrome** .. 161

■ Walter Herrmann, MD

1	The diseases	161
1.1	Rheumatoid arthritis	161
1.2	Sjögren's syndrome	161
2	The capillaroscopic patterns	162
2.1	Rheumatoid arthritis	162
2.2	Sjögren's syndrome	163
3	Representative images	164
4	Associated clinical and laboratory markers	165
4.1	Rheumatoid arthritis	165
4.2	Sjögren's syndrome	165
5	Clinical cases	165
5.1	Case 1. Rheumatoid arthritis	165
5.2	Case 2. Sjögren's syndrome	166

CHAPTER 21**Capillaroscopy in Other Conditions** 169

■ Patrick H. Carpentier, MD; Bernard Imbert, MD

- | | | |
|---|--------------------|-----|
| 1 | Acrocyanosis | 169 |
| 2 | Chilblains | 169 |
| 3 | Erythralgia | 171 |
| 4 | Livedo | 171 |
| 5 | Conclusions | 172 |

CHAPTER 22**Capillaroscopy Links to Clinical Pathological Issues in Systemic Sclerosis** 173

■ Maurizio Cutolo, MD

- | | | |
|---|--|-----|
| 1 | Introduction | 173 |
| 2 | Capillaroscopy and serum autoantibodies in systemic sclerosis | 174 |
| 3 | Capillaroscopy and digital skin ulcers | 174 |
| 4 | Endothelin-1 plasma levels and nailfold capillaroscopic patterns | 176 |
| 5 | Capillaroscopy and pulmonary arterial hypertension | 177 |
| 6 | Nailfold videocapillaroscopy as a measure of treatment outcome in systemic sclerosis | 178 |

CHAPTER 23**Capillaroscopy in Clinical Case Resolution** 181

■ Vanessa Smith, MD; Nemanja Damjanov, MD, PhD; Alberto Sulli, MD

- | | | |
|-----|---|-----|
| 1 | Preface | 181 |
| 2 | Outline of the cases | 181 |
| 3 | Case presentations | 182 |
| 3.1 | Case number 1 – A patient with ‘early’ systemic sclerosis | 182 |
| 3.2 | Case number 2 – A patient with systemic sclerosis and diffuse cutaneous skin involvement | 183 |
| 3.3 | Case number 3 – A patient with systemic sclerosis and diffuse cutaneous skin involvement | 184 |
| 3.4 | Case number 4 – A patient with mixed connective tissue disease | 185 |
| 3.5 | Case number 5 – A patient with undifferentiated connective tissue disease and later development of systemic sclerosis | 186 |
| 3.6 | Case number 6 – A patient with Raynaud’s phenomenon and later development of mixed connective tissue disease with pulmonary involvement | 188 |
| 3.7 | Case number 7 – Progression of scleroderma microangiopathy from an ‘early’ to ‘late’ capillaroscopic pattern | 189 |
| 3.8 | Case number 8 – Modification of capillary morphology during immunosuppressive treatment | 192 |

Index 195
