Biographies .....	iv
Acknowledgments .....	v
Introduction .....	vi
<b>1. Pathophysiology of postmenopausal osteoporosis</b> .....	<b>1</b>
Bone anatomy and physiology .....	1
Bone acquisition and peak bone mass .....	2
Definition of osteoporosis .....	2
Genetics of osteoporosis .....	2
The role of estrogen deficiency in the pathogenesis of osteoporosis .....	2
The role of nutritional factors in postmenopausal osteoporosis .....	3
References .....	23
<b>2. Epidemiology and diagnosis of postmenopausal osteoporosis</b> .....	<b>25</b>
Prevalence of postmenopausal osteoporosis and the different fractures .....	25
Risk factors .....	25
Vertebral deformity and fracture .....	26
Hip fracture .....	26
Other sites .....	26
Diagnosis of osteoporosis .....	26
Economic cost of fractures .....	28
Effect of fractures on independence, quality of life and mortality .....	28
References .....	46
<b>3. Bone quality and strength</b> .....	<b>47</b>
Determinants of bone strength .....	47
Evaluation of bone strength .....	49
References .....	62
<b>4. Prevention and treatment of postmenopausal osteoporosis</b> .....	<b>63</b>
Nonpharmacological approaches .....	63
Pharmacological approaches .....	64
References .....	82
<b>5. Conclusions</b> .....	<b>85</b>
Index .....	87
