CHAPTER

Chapter 10 Partial Differential Equations and Fourier Series 247

| | | |
|------|-------|-----|
| 10.1 | | 247 |
| 10.2 | | 248 |
| 10.3 | | 253 |
| 10.4 | | 258 |
| 10.5 | | 264 |
| 10.6 | | 268 |
| 10.7 | | 273 |
| 10.8 | | 280 |

Chapter 11 Boundary Value Problems and Sturm-Liouville Theory 291

| | | |
|------|-------|-----|
| 11.1 | | 291 |
| 11.2 | | 295 |
| 11.3 | | 298 |
| 11.4 | | 303 |
| 11.5 | | 306 |
| 11.6 | | 308 |

1.1

For $y > 3/2$, the slopes are positive, therefore the solutions increase. For $y < 3/2$, the slopes are negative, therefore, the solutions decrease. As a result, y diverges from $3/2$ as $t \rightarrow \infty$ if $y(0) \neq 3/2$.
