Introduction	1
PART I	
Foundations and inheritances	5
1 Medical history in three themes: Chinese epidemiology, the geographic imagination, and a biography of <i>wenbing</i> “Warm diseases”	7
<i>Biographies of disease concepts</i>	9
<i>Spatio-temporal frames for disease in classical Chinese medicine</i>	11
<i>Seeing epidemics and the geographic imagination through a biography of <i>wenbing</i></i>	15
<i>Medical historiography</i>	19
<i>Structure of three themes</i>	22
2 A deep history of the Chinese geographic imagination: The five directions, northwest–southeast dichotomy, and southern shift	25
<i>The Chinese geographic imagination in medicine</i>	25
<i>The Inner Canon of the Yellow Emperor</i>	27
<i>Song systematization of medicine, establishment of medical canons</i>	35
<i>Regionalism and skepticism in Song medicine</i>	37
<i>Song medicine revised – the northern masters of the Jin and Yuan</i>	39
<i>The southern shift</i>	43

PART II

New Ming medical boundaries

47

- 3 The geographic imagination in Ming medicine: Northern purgatives, southern restoratives, and conceptions of north and south** 49
- Geographic asymmetries* 50
- Dai Liang on northern and southern medicine* 53
- The Enlightened Physicians' challenge to regionalism* 55
- Required Readings and late Ming medical regionalism* 61
- Regional diseases, social diagnoses* 66
- 4 Ming medical frontiers: Diseases of the Far South, new conceptions of contagion** 69
- The zhang miasmas of Lingnan* 69
- Lingnan diseases for the general Ming reader* 73
- Zhang and leprosy* 73
- Zhang and syphilis* 76
- Zhang and frontier peoples* 77
- Gu poisoning, Lingnan, and the Miao* 80
- Southern diseases and cosmological criticism in medicine* 84
- 5 Ming medical skepticism: Epidemiological crisis, cosmological criticism** 91
- Epidemiological crisis and the discourse on anomalies* 92
- One physician's response to the end-of-Ming epidemics* 94
- Local epidemiology over universal cosmology* 102

PART III

Early modern medical transformations

105

- 6 Matters of place: Epistemological divisions, genealogical divergence** 107
- The geographic imagination and smallpox among Manchus* 108
- Southern physicians respond to the Treatise on Febrile Epidemics* 110
- Imperial perspectives on smallpox, epidemics, and Warm diseases* 121
- The Four Great Masters debate and opposing genealogies of medicine* 124
- 7 Emergence of traditions: The nineteenth-century genealogy and geography of Warm diseases** 126
- Currents of learning and emergent traditions* 127
- First biographer of Warm diseases* 130

<i>A Shaoxing physician and his A Stick to Awaken Physicians</i>	131
<i>First anthologist of Warm diseases</i>	133
<i>Southern Diseases and Suzhou networks</i>	143
<i>Convergences and Divergences</i>	146
8 Conclusion: New and old nosologies in modern China – From imagining to mapping the geography of diseases in China (and back again)	151
<i>The geographic distribution of Diseases of China</i>	151
<i>Chinese medicine and wenbing in Republican China</i>	152
<i>Regional medicine, wenbing in Suzhou, and Lingnan's wenbing</i>	157
<i>The geographic imagination and SARS as wenbing</i>	162
<i>Notes</i>	170
<i>Bibliography</i>	211
<i>Index</i>	251
