<i>Translator's Note and Acknowledgments</i>	vii
<i>System – Autopoiesis – Form: An Introduction to Luhmann's</i> Introduction to Systems Theory	viii
<i>Editor's Preface to the German Edition</i>	xvii
I Sociology and Systems Theory	1
<i>First Lecture</i>	1
1 The Functionalism of System Maintenance	2
2 Parsons	6
<i>Second Lecture</i>	13
II General Systems Theory	25
1 The Theory of Open Systems	25
<i>Third Lecture</i>	25
2 System as Difference (Formal Analysis)	43
<i>Fourth Lecture</i>	43
3 Operational Closure	63
<i>Fifth Lecture</i>	63
4 Self-Organization, Autopoiesis	70
5 Structural Coupling	83
<i>Sixth Lecture</i>	83
6 Observing	101
<i>Seventh Lecture</i>	101
7 Re-entry	120

8 Complexity	120
<i>Eighth Lecture</i>	120
9 The Idea of Rationality	131
III Time	141
<i>Ninth Lecture</i>	141
IV Meaning	160
<i>Tenth Lecture</i>	160
V Psychic and Social Systems	180
1 Problems of "Action Theory"	180
<i>Eleventh Lecture</i>	180
2 Two Modes of Operation of Autopoiesis	188
<i>Twelfth Lecture</i>	195
VI Communication as a Self-Observing Operation	212
<i>Thirteenth Lecture</i>	
VII Double Contingency, Structure, Conflict	233
<i>Fourteenth Lecture</i>	233
<i>Notes</i>	255
<i>Suggested Further Readings</i>	269
<i>Index</i>	273
