SECTION 1

Normal cognitive function

- 1 Historical aspects of neurology** 3
Charles Gross
- 2 Functional specialization and network connectivity in brain function** 17
Giovanna Zamboni
- 3 The frontal lobes** 27
Teresa Torralva, Ezequiel Gleichgerrcht, Agustin Ibañez, and Facundo Manes
- 4 The temporal lobes** 39
Morgan D. Barense, Jason D. Warren, Timothy J. Bussey, and Lisa M. Saksida
- 5 The parietal lobes** 51
Masud Husain
- 6 The occipital lobes** 59
Geraint Rees
- 7 The basal ganglia in cognitive disorders** 69
James Rowe and Timothy Rittman
- 8 Principles of white matter organization** 81
Marco Catani
- 9 Neurochemistry of cognition** 91
Trevor W. Robbins

SECTION 2

Cognitive dysfunction

- 10 Bedside assessment of cognition** 105
Seyed Ahmad Sajjadi and Peter J. Nestor
- 11 Neuropsychological assessment** 113
Diana Caine and Sebastian J. Crutch
- 12 Acquired disorders of language and speech** 123
Dalia Abou Zeki and Argye E. Hillis
- 13 Memory disorders** 135
Lara Harris, Kate Humphreys, Ellen M. Migo, and Michael D. Kopelman
- 14 Vision and visual processing deficits** 147
Anna Katharina Schaadt and Georg Kerkhoff
- 15 Disorders of attentional processes** 161
Paolo Bartolomeo and Raffaella Migliaccio
- 16 Apraxia** 173
Georg Goldenberg
- 17 Acquired calculation disorders** 183
Marinella Cappelletti
- 18 Disorders of reading and writing** 189
Alexander P. Leff
- 19 Neuropsychiatric aspects of cognitive impairment** 197
Dylan Wint and Jeffrey L. Cummings

SECTION 3**Cognitive impairment and dementia**

- 20 Epidemiology of dementia** 211
Thais Minett and Carol Brayne
- 21 Assessment and investigation of the cognitively impaired adult** 221
Jonathan M. Schott, Nick C. Fox, and Martin N. Rossor
- 22 Delirium, drugs, toxins** 231
Barbara C. van Munster, Sophia E. de Rooij, and Sharon K. Inouye
- 23 CNS infections** 239
Sam Nightingale, Benedict Daniel Michael, and Tom Solomon
- 24 Metabolic dementia** 253
Nicholas J.C. Smith and Timothy M. Cox
- 25 Vascular cognitive impairment** 275
Geert Jan Biessels and Philip Scheltens
- 26 Cerebral amyloid angiopathy and CNS vasculitis** 285
Sergi Martinez-Ramirez, Steven M. Greenberg, and Anand Viswanathan
- 27 Cognition in multiple sclerosis** 295
Maria A. Ron
- 28 Autoimmune encephalitis** 299
Sarosh R. Irani, Thomas D. Miller, and Angela Vincent
- 29 Pathology of degenerative dementias** 315
Tamas Revesz, Tammaryn Lashley, and Janice L. Holton
- 30 Genetics of degenerative dementias** 329
Rita Guerreiro and Jose Bras
- 31 Other genetic causes of cognitive impairment** 339
Davina J. Hensman Moss, Nicholas W. Wood, and Sarah J. Tabrizi
- 32 Changing concepts and new definitions for Alzheimer's disease** 353
Bruno Dubois and Olga Uspenskaya-Cadoz
- 33 Presentation and management of Alzheimer's disease** 361
Susan Rountree and Rachelle S. Doody
- 34 Primary progressive aphasia** 381
Jonathan D. Rohrer and Jason D. Warren
- 35 Frontotemporal dementia** 391
Bruce Miller and Soo Jin Yoon
- 36 Dementia with Lewy bodies and Parkinson's disease dementia** 399
Haşmet A. Hanağası, Başar Bilgiç, and Murat Emre
- 37 Corticobasal degeneration, progressive supranuclear palsy, multiple system atrophy, argyrophilic grain disease, and rarer neurodegenerative diseases** 413
Elizabeth A. Coon and Keith A. Josephs
- 38 Prion diseases** 425
Simon Mead, Peter Rudge, and John Collinge
- 39 Traumatic brain injury** 435
David J. Sharp, Simon Fleminger, and Jane Powell
- 40 Neurosurgery for cognitive disorders** 453
Tom Foltynie and Ludvic Zrinzo
- 41 Cognition in severe mental illness: Schizophrenia, bipolar disorder, and depression** 463
Philip D. Harvey and Christopher R. Bowie
- Index** 471
