

Mozart's 18 piano sonatas offer a unique musical biography of the composer. Written between 1774 and 1789, they span nearly all of his adult life, the earliest dating back to when he was 18, the last composed just two years before his death in 1791. Young Japanese pianist Mao Fujita now makes his debut on Sony Classical with this major recording project of Mozart's complete piano sonatas on 5 CDs. Recorded in Berlin under ideal studio conditions, Fujita, with innate musical sensitivity and naturalness, lets every note speak with vitality, wit and charm.
