

## Research papers

<i>Johannes Schleisnitz: On a question of Schmidt and Summerer concerning 3-systems</i> . . . . .	253
<i>Aicha Benkartab, Ahmed Mohammed Cherif: Deformations of Metrics and Biharmonic Maps</i> . . . . .	263
<i>Muhammad Jibril Shahab Sahir: Reconciliation of discrete and continuous versions of some dynamic inequalities synthesized on time scale calculus</i>	277
<i>Harina P. Waghmore, Ramya Maligi: Generalization of uniqueness and value sharing of meromorphic functions concerning differential polynomials</i> . . . . .	289
<i>Askold M. Perelomov: A simple construction of basic polynomials invariant under the Weyl group of the simple finite-dimensional complex Lie algebra</i> . . . . .	301
<i>Ilya B. Gorshkov, Andrey V. Kukharev: Finite groups with prime graphs of diameter 5</i> . . . . .	307
