

**TABLE OF CONTENTS**

<b>1. Introduction</b>	<b>4</b>
<b>2. Literature research</b>	<b>5</b>
2.1. Forests and forest management in the study area Voděradské bučiny	5
2.1.1. Natural conditions of the study area	5
2.1.2. Historical overview	6
2.1.3. Present situation and protection status	9
2.2. The environment of European beech	11
2.2.1. Temperature, water and soil	11
2.2.2. Beech range in Europe	12
2.3. Structure and occurrence of dead wood in beech forests	14
2.3.1. Structure of beech forests	14
2.3.2. Dead wood in beech forests	15
2.4. Natural regeneration of beech forests in Europe	17
2.4.1. Seed production, germination, establishment and survival	17
2.4.2. Growth: shade tolerance	19
2.4.3. Gap-phase regeneration in natural forests	21
2.4.4. Silviculture of beech with respect to natural regeneration	23
<b>3. Aims of the study</b>	<b>25</b>
<b>4. Experimental procedures</b>	<b>26</b>
4.1. General approach	26
4.2. Study plots	26
4.3. Methods	36
4.3.1. Structure of beech forest stands	36
4.3.2. Seed production and natural regeneration	39
<b>5. Structure and regeneration of beech stands in NNR Voděradské bučiny</b>	<b>41</b>
5.1. Structure of beech stands with different management history	41
5.2. Natural regeneration of managed beech forest stands	55
5.3. Natural regeneration of semi-natural beech forest stands	60
<b>6. Conclusions</b>	<b>69</b>
<b>7. Recommendations for the forest management</b>	<b>71</b>
<b>8. Summary</b>	<b>74</b>
<b>9. Rozšířený souhrn</b>	<b>75</b>
<b>10. References</b>	<b>78</b>
