

The Rossinian ebullience pervading this sacred composition initially shocked, and remains unique to this day. This – and the intense operatic demands on the soloists – makes such world-class accounts of the imaginative work exceedingly rare. “This is a Mass of light, a tribute to virtuoso playing and singing, and a celebration – more than just pyrotechnics, it rightly brings a smile to the listener’s face.” **Antonio Pappano**

GIOACHINO ROSSINI 1792-1868
