BEGINNINGS 3

PART I ABOUT LIFE AND ITS REGULATION (HOMEOSTASIS)

1 On the Human Condition 11

A Simple Idea • Feeling Versus Intellect • How Original Was the Human Cultural Mind? • Humble Beginnings • From the Life of Social Insects • Homeostasis • Foreshadowing Minds and Feelings Is Not the Same as Generating Minds and Feelings • Early Organisms and Human Cultures

2 In a Region of Unlikeness 33

Life • Life on the Move

3 Varieties of Homeostasis 44

The Distinct Varieties of Homeostasis • Homeostasis Now • The Roots of an Idea

4 From Single Cells to Nervous Systems and Minds 53

Ever Since Bacterial Life • Nervous Systems • The Living Body and the Mind

PART II ASSEMBLING THE CULTURAL MIND

5 The Origin of Minds 71

The Momentous Transition • Minded Life • The Big Conquest • Images Require Nervous Systems • Images of the World Outside Our Organism • Images of the World Internal to Our Organism

6 Expanding Minds 84

The Hidden Orchestra • Image Making • Meanings, Verbal Translations, and the Making of Memories • Enriching Minds • A Note on Memory

7 Affect 99

What Feelings Are • Valence • Kinds of Feelings • The Emotive Response Process • Where Do Emotive Responses Come From? • Emotional Stereotypes • The Inherent Sociality of Drives, Motivations, and Conventional Emotions • Layered Feelings

8 The Construction of Feelings 117

Where Do Feelings Come From? • Assembling Feelings • The Continuity of Bodies and Nervous Systems • The Role of the Peripheral Nervous System • Other Peculiarities of the Body-Brain Relationship • The Neglected Role of the Gut • Where Are Feeling Experiences Located? • Feelings Explained? • An Aside on Remembrances of Feelings Past

9 Consciousness 143

About Consciousness • Observing Consciousness • Subjectivity: The First and Indispensable Component of Consciousness • The Second Component of Consciousness: Integrating Experiences • From Sensing to Consciousness • An Aside on the Hard Problem of Consciousness

PART III THE CULTURAL MIND AT WORK

10 On Cultures 165

The Human Cultural Mind in Action • Homeostasis and the Biological Roots of Cultures • Distinctive Human Cultures • Feelings as Arbiters and Negotiators • Assessing the Merits of an Idea • From Religious Beliefs and Morality to Political Governance • The Arts, Philosophical Inquiry, and the Sciences • Contradicting an Idea • Taking Stock • A Hard Day's Night

11 Medicine, Immortality, and Algorithms 194

Modern Medicine • Immortality • The Algorithmic Account of Humanity • Robots Serving Humans • Back to Mortality

12 On the Human Condition Now 211

An Ambiguous State of Affairs • Is There a Biology Behind the Cultural Crisis? • An Unresolved Clash

13 The Strange Order of Things 234

Acknowledgments 245
