THE SCOPE OF PUBLIC HEALTH

SECTION 1

The development of the discipline of public health

- 1.1 The scope and concerns of public health 3
Roger Detels and Chorh Chuan Tan
- 1.2 The history and development of public health in developed countries 19
Christopher Hamlin
- 1.3 The history and development of public health in low- and middle-income countries 37
Than Sein
- 1.4 Development of public health in economic transition: the middle-income countries 48
Kai Hong Phua, Mui-Teng Yap, Sara U. Schwanke Khilji, and Hin-Peng Lee
- 1.5 Globalization 62
Kelley Lee

SECTION 2

Determinants of health and disease

- 2.1 Determinants of health: overview 81
Justin V. Remais and Richard J. Jackson
- 2.2 Poverty, justice, and health 89
Ronald Labonté, Frances Baum, and David Sanders

- 2.3 Socioeconomic inequalities in health in high-income countries: the facts and the options 106
Johan P. Mackenbach

- 2.4 Reducing health inequalities in developing countries 127
Hoosen Coovadia and Irwin Friedman

- 2.5 Genomics and public health 140
Vural Özdemir, Wylie Burke, Muin J. Khoury, Bartha M. Knoppers, and Ron Zimmern

- 2.6 Water and sanitation 162
Thomas Clasen

- 2.7 Food and nutrition 180
Prakash S. Shetty

- 2.8 The environment and climate change 201
Alistair Woodward and Alex Macmillan

- 2.9 Behavioural determinants of health and disease 218
Lawrence W. Green, Robert A. Hiatt, and Kristin S. Hoefft

- 2.10 Access to healthcare and population health 234
Martin Gulliford

SECTION 3

Public health policies, law, and ethics

- 3.1 Leadership in public health 253
Manuel M. Dayrit and Maia Ambegaokar

- 3.2 Ethical principles and ethical issues in public health 267
Nancy Kass, Amy Paul, and Andrew Siegel

3.3 The right to the highest attainable standard of health 277

Paul Hunt, Gunilla Backman, Judith Bueno de Mesquita, Louise Finer, Rajat Khosla, Dragana Korljan, and Lisa Oldring

3.4 Law and the public's health 293

Lawrence Gostin

3.5 Priority setting, social values, and public health 303

Peter Littlejohns, Sarah Clark, and Albert Weale

3.6 Health policy in developing countries 314

Miguel Angel González-Block, Adetokunbo Lucas, Octavio Gómez-Dantés, and Julio Frenk

3.7 Public health policy in developed countries 332

John Powles

3.8 International efforts to promote public health 348

Douglas Bettcher, Katherine DeLand, Gemma Lien, Fernando Gonzalez-Martinez, Anne Huvos, Steven Solomon, Ulrike Schwerdtfeger, Haik Nikogosian, Angelika Tritscher, and Julia Dalzell

THE METHODS OF PUBLIC HEALTH**SECTION 4****Information systems and sources of intelligence****4.1 Information systems in support of public health in high-income countries 367**

Tjeerd-Pieter van Staa and Liam Smeeth

4.2 Information systems and community diagnosis in low- and middle-income countries 375

Peter Cherutich and Ruth Nduati

4.3 New communication technologies, social media, and public health 388

Mohan J. Dutta

SECTION 5**Epidemiological and biostatistical approaches****5.1 Epidemiology: the foundation of public health 403**

Roger Detels

5.2 Ecological variables, ecological studies, and multilevel studies in public health research 411

Ana V. Diez Roux

5.3 Cross-sectional studies 430

Manolis Kogevinas and Leda Chatzi

5.4 Principles of outbreak investigation 442

Kumnuan Ungchusak and Sophon Iamsirithaworn

5.5 Case-control studies 457

Noel S. Weiss

5.6 Cohort studies 467

Alvaro Muñoz and F. Javier Nieto

5.7 Methodology of intervention trials in individuals 484

Lawrence M. Friedman and Eleanor B. Schron

5.8 Methodological issues in the design and analysis of community intervention trials 500

Allan Donner

5.9 Community intervention trials in high-income countries 516

John W. Farquhar and Lawrence W. Green

5.10 Community-based intervention trials in low- and middle-income countries 528

Sheena G. Sullivan and Zunyou Wu

5.11 Clinical epidemiology 540

Vivian A. Welch, Kevin Pottie, Tomás Pantoja, Andrea C. Tricco, and Peter Tugwell

5.12 Genetic epidemiology 550

Elizabeth H. Young and Manjinder S. Sandhu

5.13 Validity and bias in epidemiological research 569

Sander Greenland and Tyler J. VanderWeele

5.14 Causation and causal inference 591

Katherine J. Hoggatt, Sander Greenland, and Tyler J. VanderWeele

5.15 Systematic reviews and meta-analysis 599

Jimmy Volmink and Mike Clarke

5.16 Statistical methods 613

Gail Williams

5.17 Measuring the health of populations: the Global Burden of Disease study methods 634

Theo Vos and Christopher J. L. Murray

5.18 Mathematical models of transmission and control of infectious agents 645

Alex Welte, Brian Williams, and Gavin Hitchcock

5.19 Public health surveillance 664

James W. Buehler and Ann Marie Kimball

5.20 Life course epidemiology and analysis 679

Diana Kuh, Yoav Ben-Shlomo, Kate Tilling, and Rebecca Hardy

SECTION 6**Social science techniques****6.1 Sociology and psychology in public health 695**

Stella R. Quah

6.2 Sexuality and public health 709

Richard Parker, Jonathan Garcia, Miguel Muñoz-Laboy, Marni Sommer, and Patrick Wilson

6.3 Demography and public health 718

Emily Grundy and Michael Murphy

6.4 Health promotion, health education, and the public's health 736

Simon Carroll and Marcia Hills

6.5 Development and evaluation of complex multicomponent interventions in public health 751

Rona Campbell and Chris Bonell

6.6 Economic appraisal in public healthcare: assessing efficiency and equity 761

David Parkin, Stephen Morris, and Nancy Devlin

6.7 Behavioural economics and health 775

Judd B. Kessler and C. Yiwei Zhang

6.8 Governance and management of public health programmes 790

Eng-kiong Yeoh

6.9 Implementation science and translational public health 807

Kedar S. Mate, Theodore Svoronos, and Dan W. Fitzgerald

SECTION 7**Environmental and occupational health sciences****7.1 Environmental health issues in public health 823**

Chien-Jen Chen

7.2 Radiation and public health 840

Leeka Kheifets, Adele Green, and Richard Wakeford

7.3 Environmental exposure assessment: modelling air pollution concentrations 857

John Gulliver and Kees de Hoogh

7.4 Occupational health 868

David Koh and Tar-Ching Aw

7.5 Toxicology and risk assessment in the analysis and management of environmental risk 883

David Koh, Tar-Ching Aw, and Bernard D. Goldstein

7.6 Risk perception and communication 893

Baruch Fischhoff

THE PRACTICE OF PUBLIC HEALTH**SECTION 8****Major health problems****8.1 Epidemiology and prevention of cardiovascular disease 909**

Nathan D. Wong

8.2 Cancer epidemiology and public health 923

Zuo-Feng Zhang, Paolo Boffetta, Alfred I. Neugut, and Carlo La Vecchia

8.3 Chronic obstructive pulmonary disease and asthma 945

Jeroen Douwes, Marike Boezen, Collin Brooks, and Neil Pearce

8.4 Obesity 970

W. Philip T. James and Tim Marsh

8.5 Physical activity and health 992

Nasiha Soofie and Roger Detels

8.6 Diabetes mellitus 1001

Nigel Unwin and Jonathan Shaw

8.7 Public mental health and suicide 1013

Kristian Wahlbeck and Danuta Wasserman

8.8 Dental public health 1028

Peter G. Robinson and Zoe Marshman

8.9 Musculoskeletal disorders 1046

Lope H. Barrero and Alberto J. Caban-Martinez

8.10 Neurological diseases, epidemiology, and public health 1060

Walter A. Kukull and James Bowen

8.11 Infectious diseases and prions 1079

Davidson H. Hamer and Zulfiqar A. Bhutta

8.12 Sexually transmitted infections 1104

Mary L. Kamb and Patricia J. Garcia

- 8.13 HIV/acquired immunodeficiency syndrome** 1122
Stan H. Vermund and Suniti Solomon
- 8.14 Tuberculosis** 1144
David W. Dowdy, Richard E. Chaisson,
and Gavin J. Churchyard
- 8.15 Malaria** 1161
Frank Sorvillo, Shira Shafir, and Benjamin Bristow
- 8.16 Chronic hepatitis and other liver disease** 1175
Pierre Van Damme, Tinne Lernout, Koen Van Herck, Rui
T. Marinho, Raymundo Paraná, and Daniel Shouval
- 8.17 Emerging and re-emerging infections** 1192
David L. Heymann and Vernon J. M. Lee
- 8.18 Bioterrorism** 1206
Nicholas S. Kelley and Michael T. Osterholm
- SECTION 9**
**Prevention and control of public
health hazards**
- 9.1 Tobacco** 1217
Tai Hing Lam and Sai Yin Ho
- 9.2 Public health aspects of illicit
psychoactive drug use** 1233
Don Des Jarlais, Jonathan Feelemyer, and Deborah Hassin
- 9.3 Alcohol** 1249
Robin Room
- 9.4 Injury prevention and control: the
public health approach** 1262
Corinne Peek-Asa and Adnan Hyder
- 9.5 Interpersonal violence: a recent
public health mandate** 1276
Rachel Jewkes
- 9.6 Collective violence: war** 1288
Barry S. Levy and Victor W. Sidel
- 9.7 Urban health in low- and
middle-income countries** 1297
Mark R. Montgomery
- SECTION 10**
**Public health needs of population
groups**
- 10.1 The changing family** 1317
Gavin W. Jones

- 10.2 Women, men, and health** 1328
Sarah Payne and Lesley Doyal
- 10.3 Child health** 1344
Cynthia Boschi-Pinto, Nigel Rollins, Bernadette Daelmans,
Rajiv Bahl, Jose Martines, and Elizabeth Mason
- 10.4 Adolescent health** 1359
Pierre-André Michaud, Anne-Emmanuelle Ambresin,
Richard F. Catalano, Judith Diers, and George C. Patton
- 10.5 Ethnicity, race, epidemiology,
and public health** 1371
Raj Bhopal
- 10.6 The health of indigenous peoples** 1382
Ian Anderson and Sue Crengle
- 10.7 People with disabilities** 1392
Donald J. Lollar and Elena M. Andresen
- 10.8 Health of older people** 1408
Julie E. Byles and Meredith A. Tavener
- 10.9 Forced migrants and other
displaced populations** 1425
Catherine R. Bateman Steel and Anthony B. Zwi
- 10.10 Prisons: from punishment to public health** 1445
Ernest Drucker

SECTION 11
Public health functions

- 11.1 Health needs assessment** 1463
Michael P. Kelly, Jane E. Powell, and Natalie Bartle
- 11.2 Prevention and control of
non-communicable diseases** 1476
K. Srinath Reddy
- 11.3 Principles of infectious disease control** 1484
Robert J. Kim-Farley
- 11.4 Population screening and public health** 1507
Allison Streetly and Lars Elhers
- 11.5 Environmental health practice** 1523
Yasmin E.R. von Schirnding
- 11.6 Strategies and structures for public
health intervention** 1542
Sian Griffiths
- 11.7 Strategies for health services** 1563
Chien Earn Lee

11.8 Training of public health professionals in developing countries 1580

Vonthanak Saphonn, San Hone, and Roger Detels

11.9 Training of local health workers to meet public health needs 1585

Piya Hanvoravongchai and Suwit Wibulpolprasert

11.10 Emergency public health and humanitarian assistance in the twenty-first century 1594

Les Roberts and Richard Brennan

11.11 Principles of public health emergency response for acute environmental, chemical, and radiation incidents 1608

Naima Bradley, Jill Meara, and Virginia Murray

11.12 Private support of public health 1621

Quarraisha Abdool Karim and Roger Detels

11.13 The future of international public health in an era of austerity 1629

Margaret Chan and Mary Kay Kindhauser

Index 1645

Quarraisha Abdool Karim Associate Scientific Director, CAPRISA; Professor in Clinical Epidemiology, Columbia University, USA; Adjunct Professor in Public Health, University of KwaZulu-Natal, South Africa
Chapter 11.12 Private support of public health

Maia Ambegaonkar Principal, Health Governance, Policy Planning Management consultancy, Sydney, Australia
Chapter 3.1 Leadership in public health

Anne-Emmanuelle Ambresin Senior Resident, Multidisciplinary Unit for Adolescent Health, University Hospital/CHUV, Lausanne, Switzerland
Chapter 10.4 Adolescent health

Ian Anderson Murrup Barak, Melbourne Institute for Indigenous Development, The University of Melbourne, Melbourne, VIC, Australia
Chapter 10.6 The health of indigenous peoples

Elena M. Andresen Interim Dean, Public Health, Oregon Health & Science University, and Portland State University, Portland, OR, USA
Chapter 10.7 People with disabilities

Tar-Ching Aw College of Medicine and Health Sciences, United Arab Emirates University, Al Ain, United Arab Emirates
Chapter 7.4 Occupational health
Chapter 7.5 Toxicology and risk assessment in the analysis and management of environmental risk

Carilla Backman Swedish International Development Cooperation Agency, Stockholm, Sweden
Chapter 3.3 The right to the highest attainable standard of health

Rajiv Bahl World Health Organization, Geneva, Switzerland
Chapter 10.3 Child health

Lupe H. Barrero Department of Industrial Engineering, Pontificia Universidad Javeriana, Bogotá, Colombia
Chapter 8.9 Musculoskeletal diseases

Nazkie Bartle NHS Trust Development Authority, Midlands and East, UK
Chapter 11.1 Health needs assessment

Catherine R. Bateman Steel School of Social Sciences, University of New South Wales, Sydney, NSW, Australia
Chapter 10.9 Forced migrants and other displaced populations

Frances Baum Director of the Southgate Institute of Health, Society and Equity at Flinders University, Adelaide, SA, Australia
Chapter 2.2 Poverty, justice, and health

Yoav Ben-Shlomo School of Social and Community Medicine, University of Bristol, Bristol, UK
Chapter 5.20 Life course epidemiology and analysis

Douglas Bettcher Director, Prevention of Non-Communicable Diseases, World Health Organization, Geneva, Switzerland
Chapter 3.8 International efforts to promote public health

Raj Bhopal Edinburgh Ethnicity and Health Research Group, University of Edinburgh, Edinburgh, UK
Chapter 10.5 Ethnicity, race, social class, and public health

Zulfiqar A. Bhutta Robert H. Gray Centre for Global Child Health & Policy, Centre for Global Child Health, Hospital for Sick Children Toronto, Canada; Aga Khan Institute for the Study of Childhood Diseases, Aga Khan University, Karachi, Pakistan
Chapter 8.11 Infectious diseases

Marika Boezen University of Groningen, University Medical Center Groningen, Department of Pulmonary Diseases, Groningen, Netherlands
Chapter 8.3 Chronic obstructive pulmonary disease and asthma

Paolo Boffetta Director of the International Agency for Research on Cancer, International Epidemiology at Mount Sinai Hospital, New York, NY, USA
Chapter 8.2 Cancer epidemiology and public health

Chris Bonell Department of Education, Families and Health, Institute of Education, University of London, UK
Chapter 6.5 Development and evaluation of complex, multicomponent interventions for public health

Cynthia Boschi-Pinto World Health Organization, Geneva, Switzerland; and Universidade Federal Fluminense, Niterói, Brazil
Chapter 10.3 Child health
