Part 1

Fundamentals of foot

Chapter 1. Anatomy of the human foot

Lap Ki Chan

1.1 Introduction	3
1.2 Bones of the human foot	3
1.3 The joints of the human foot	11
1.4 Muscles and tendons of the human foot	13
1.5 The arches of the human foot	19
1.6 Neurovasculature of the foot	21
1.7 Surface anatomy of the human foot	23
1.8 Conclusion	27
Sources of further information	27

Chapter 2. Sample foot data

Ameersing Luximon and Yan Luximon

2.1 Overview and importance of chapter	29
2.2 Anthropometry and surface data	30
2.3 Infrared data	53
2.4 MRI scan and CT scan	55
2.5 Conclusions	78
<i>Sources of further information</i>	78
Acknowledgments	78
References	78

Chapter 3. Foot and footwear biomechanics and gait

Carina Price, Timo Schmeltzpfenning, Chris J. Nester, and Torsten Brauner

3.1 Introduction	79
3.2 Gait	79
3.3 Kinetics	82

3.4 Kinematics	88
3.5 Electromyography	92
3.6 Dynamic foot morphology	92
3.7 Future trends	94
3.8 Conclusion	96
Sources of further information and advice	97
References	99
Further reading	103

Chapter 4. Foot growth

Bettina Barisch-Fritz and Marlene Mauch

4.1 Introduction	105
4.2 Development of the foot during childhood and adolescence	106
4.3 Foot growth with respect to the comprehensive foot shape	116
4.4 Conclusions	122
Reference	124

Chapter 5. Foot models and measurements

Shuping Xiong, Ameersing Luximon, and Jianhui Zhao

5.1 Introduction: Overview and importance of chapter	127
5.2 Foot anthropometric measurements, variations, and foot-type classifications	128
5.3 Foot shape modeling	135
5.4 Conclusions	143
Sources of further information	144
References	144

Part 2

Footwear and shoe last design

Chapter 6. Foot sketch templates and footwear design

Guoxiang Yuan, Kinor Jiang, and Jingtian Wang

6.1 Introduction	151
6.2 Anatomy of the human foot	151
6.3 Elements of foot sketching	161
6.4 Materials and tools	165
6.5 Styles of foot sketch	170
6.6 Conclusion	172
References	172

Chapter 7. Shoe design development

Orietta Pelizzari

7.1 Introduction	175
------------------	-----

7.2 Fashion trends	175
7.3 Stages of the design process	176
7.4 Case studies	181
7.5 Conclusion	186
References	186

Chapter 8. Footwear drawing templates and shoe design

Wing C. Wong and Ameersing Luximon

8.1 Introduction	187
8.2 Using a template	189
8.3 Colouring and shadow	204
8.4 Recommendations	211
Sources of further information	211

Part 3

Footwear manufacture, shoe-last and related aspects

Chapter 9. Design and manufacture of shoe last

Ameersing Luximon, Ma Xiao, and Yan Luximon

9.1 Introduction	215
9.2 Basis of shoe last	215
9.3 Relationship between a foot and shoe last	220
9.4 Shoe last design	224
9.5 Manufacture of shoe last	230
9.6 Shoe last design innovation	234
9.7 Conclusion	241
Source of information	241
References	241

Chapter 10. Sizing and grading of shoe last

Yan Luximon and Ameersing Luximon

10.1 Introduction	243
10.2 Sizing and grading	243
10.3 Common sizing and grading scales	245
10.4 Custom sizing and customization	262
10.5 Conclusions	272
References	272

Chapter 11. Shoe-last design templates

Ameersing Luximon and Yan Luximon

11.1 Introduction	275
11.2 Definitions	276
11.3 Shoe-last templates	281

11.4 Conclusion	281
Sources of further information and advice	283
References	302

Chapter 12. The environmental impact of footwear and footwear materials

Subramanian Senthilkannan Muthu and Yi Li

12.1 Introduction	305
12.2 Footwear and footwear materials	306
12.3 Importance of environmental impact of footwear and footwear materials	307
12.4 Assessing the environmental impact of footwear products	307
12.5 Environmental impact studies of footwear and footwear materials	310
12.6 Conclusion and future trends	316
References	317

Part 4

Applications

Chapter 13. Footwear for cold weather conditions

Kalev Kuklane and Yazid Kaced

13.1 Introduction	323
13.2 The feet in cold environments	323
13.3 Foot- and footwear-related injuries in cold environments	327
13.4 Design requirements of footwear for cold environments	330
13.5 Footwear insulation	337
13.6 Footwear evaporative resistance measurements	342
13.7 Moisture management in footwear	344
13.8 Effect of socks on feet insulation, moisture management, and comfort	349
References	353

Chapter 14. The use of textiles and materials for orthopedic footwear insoles

Kit-Lun Yick and Chi-Yung Tse

14.1 Overview and importance of using textiles and materials for orthopedic footwear insoles	361
14.2 Key requirements for orthopedic footwear insoles	362
14.3 Types of textiles and materials for orthopedic footwear insoles	365
14.4 Examples of orthopedic footwear insoles	373
14.5 Test methods and instruments	379
14.6 Future trends	381

Sources of further information and advice	384
Acknowledgment	385
References	385

Chapter 15. The use of textiles in protective military footwear

Faming Wang

15.1 Introduction	389
15.2 Key requirements for military footwear	390
15.3 The role of textiles in military footwear	397
15.4 Examples of military footwear	401
15.5 Conclusions	406
15.6 Future trends	406
Sources of further information	407
References	407

Chapter 16. Common orthopedic problems in the foot and their implications for footwear design

Balasankar Ganesan, Palak Prasad, Suraiya Akter, and Raymond K.Y. Tong

16.1 Introduction	413
16.2 Common orthopedic problems in the foot	414
16.3 Neuropathic foot problems	429
16.4 Common orthopedic and neuropathic foot problems and their implications for footwear design	431
16.5 Conclusion	433
References	433

Chapter 17. Geriatric footwear—Design considerations

Arthur E. Helfand

17.1 Introduction	439
17.2 Geriatric foot problems	440
17.3 Summary	456
Further reading	457

Chapter 18. Green design

Rebecca Leung and Ameersing Luximon

18.1 Introduction	459
18.2 Eco-design	462
18.3 Eco-design education and promotion	463
18.4 Case study: "Create Your Own Shoes Competition & Exhibition"	464
18.5 Conclusion	473
Sources of information	474
References	474

Chapter 19. New technologies—3D scanning, 3D design, and 3D printing

Ameersing Luximon and Yan Luximon

19.1 Introduction	477
19.2 CAD/CAM in the footwear industry	478
19.3 CAD/CAM in the footwear industry—New direction	482
19.4 New technologies	487
19.5 Conclusion	498
Source of materials	500
Youtube videos	500
References	502
Index	505
