PREFACE	vii
ACKNOWLEDGMENTS	ix
PART I	Diagnosis and General Treatment Approach1
CHAPTER 1	Diagnostic Testing3
CHAPTER 2	Case Analysis and Classification50
CHAPTER 3	General Treatment Modalities, Guidelines, and Prognosis93
CHAPTER 4	Primary Care of Binocular Vision, Accommodative, and Eye Movement Disorders118
PART II	Vision Therapy Procedures and Instrumentation145
CHAPTER 5	Introduction and General Concepts147
CHAPTER 6	Fusional Vergence, Voluntary Convergence, and Antisuppression Procedures170
CHAPTER 7	Accommodative Techniques218
CHAPTER 8	Ocular Motility Procedures229
PART III	Management239
CHAPTER 9	Low AC/A Conditions: Convergence Insufficiency and Divergence Insufficiency241

CHAPTER 10	High AC/A Conditions: Convergence Excess and Divergence Excess	282
CHAPTER 11	Normal AC/A Conditions: Fusional Vergence Dysfunction, Basic Esophoria, and Basic Exophoria	318
CHAPTER 12	Accommodative Dysfunction	347
CHAPTER 13	Eye Movement Disorders	382
CHAPTER 14	Cyclovertical Heterophoria	404
CHAPTER 15	Fixation Disparity	436
PART IV	Advanced Diagnostic and Management Issues	457
CHAPTER 16	Interactions between Accommodation and Vergence	459
CHAPTER 17	Refractive Amblyopia	478
CHAPTER 18	Nystagmus	497
CHAPTER 19	Aniseikonia	525
CHAPTER 20	Binocular and Accommodative Problems Associated with Computer Use	556
CHAPTER 21	Binocular and Accommodative Problems Associated with Acquired Brain Injury	578
CHAPTER 22	Binocular and Accommodative Problems Associated with Learning Problems	600
CHAPTER 23	Development and Management of Refractive Error: A Binocular Vision-Based Model	625
CHAPTER 24	Binocular Vision Problems Associated with Refractive Surgery	663
PART V	Vision Therapy and Optometric Practice	681
CHAPTER 25	Patient and Practice Management Issues in Vision Therapy	683
APPENDICES	696	
INDEX	716
